

You can use this screen to see audit information relating to processing EDI messages in the system.

The screenshot shows the 'EDI Log Enquiry' application window. It features a search bar at the top and a table of log entries. The table has columns for ID, Event, Status, Description, Event Date, and Username. A right-hand panel titled 'Reference' displays details for the selected entry (ID 13397).

ID	Event	Status	Description	Event Date	Username
13396	AUTO_PLANNING	SUCCESS		29/07/2020 12:27:16	System
13397	AUTO_PLANNING	FAIL	Cannot auto-plan order - an exception has occurred	29/07/2020 12:27:16	System

EDI log enquiry screen

You can choose to filter or display data as follows:

- **ID.**
- **Event.**
- **Status.**
- **Description.**
- **Event Date.**
- **Username.**
- **File Name.**
- **Error Detail.**
- **Association.**
- **Key 1.**
- **Key 2.**
- **Key 3.**
- **Key 4.**
- **Key 5.**
- **Active.**
- **Created By.**
- **Created Date.**
- **Last Updated By.**
- **Last Updated Date.**
- **Last Active Change By.**
- **Last Active Change Date.**
- **Last Process Id.**
- **Update Counter.**

The Screen has the following additional actions on the screen header:

- **Print** - you can print the users with this button.

You can click on a line to see the details in a pop-out Detail panel.

Details section

The following actions are available on the Details panel:

- **Help** - help on this screen.
- **Toggle** - toggle display of all accordion headers.

You can view the following information:

- **ID.**
- **Status.**
- **Event.**

- *Event Date.*
- *Username.*
- *File Name.*
- *Error Detail.*
- *Key 1.*
- *Key 2.*
- *Key 3.*
- *Key 4.*
- *Key 5.*
- *Association.*
- *Created By.*
- *Created Date.*

1 Order Enquiry

This screen allows you to query and print orders in the system.

The screen has a more complex query filter than normal, due to the amount of data available to be entered for orders.

In this case, you select the field to be filtered from a drop-down list of all fields, then the operator, and then the value.

Delivery From	Delivery By	Actual Delivery From	Actual Delivery By	Customer Ref	Status Code	Execution Status	Collect From	Deliver To	Customer Code	Customer Name	TMS Ref

Orders enquiry

The list of fields are:

- *Deliver From.*
- *Deliver By.*
- *Customer Ref.*
- *Status Code.*
- *Execution Status.*
- *Collect From.*
- *Deliver To.*
- *Customer Code.*
- *TMS Ref.*
- *Order Entry Date.*
- *Booking Ref.*
- *Collection Booking Ref.*
- *Organisation Code.*
- *Collect From Code.*
- *Collect Address Line 1.*
- *Collect Address Line 2.*
- *Collect Address Line 3.*
- *Collect Town.*
- *Collect Country Code.*
- *Collect PostCode.*
- *Collect Postal Region.*
- *Deliver To Code.*
- *Deliver Address Line 1.*
- *Deliver Address Line 2.*
- *Deliver Address Line 3.*
- *Deliver Town.*
- *Deliver Country Code.*
- *Deliver PostCode.*
- *Deliver Postal Region.*
- *Collect From.*
- *Collect By.*
- *Owner Location Name.*
- *Owner Address Line 1.*

- Owner Address Line 2.
- Owner Address Line 3.
- Owner PostCode.
- Owner Postal Region.
- Total Quantity.
- Total Volume (m³).
- Total Weight (KG).
- Total BaseUE.
- Revenue.
- Cost.
- Margin.
- Active.
- Created By.
- Created Date.
- Last Updated By.
- Last Updated Date.
- Last Active Change By.
- Last Active Change Date.
- Last Process Id.
- Update Counter.

The operators are:

- *Is Equal To* - the orders' data must match your entered criteria exactly.
- *Is Not Equal To* - the orders' data must not match your entered criteria exactly.
- *Is Greater Than* - the orders' data must be greater, alphabetically or numerically, than your entered criteria. Note that symbols and a space are considered "less than" alphabetic or numeric data.
- *Is Less Than* - the orders' data must be less than, alphabetically or numerically, than your entered criteria. Note that symbols and a space are considered "less than" alphabetic or numeric data.
- *Is Greater or Equal To* - the orders' data must be greater than or exactly equal to, alphabetically or numerically, than your entered criteria. Note that symbols and a space are considered "less than" alphabetic or numeric data.
- *Is Less Than or Equal To* - the orders' data must be less than or exactly equal to, alphabetically or numerically, than your entered criteria. Note that symbols and a space are considered "less than" alphabetic or numeric data.
- *Is In* - the orders' data must be one of the values you listed in your criteria.
- *Is Not In* - the orders' data must be one of the values you listed in your criteria.
- *Is Like* - the orders' data must be similar to your entered criteria. Note that you must use a percentage symbol as a wildcard e.g. to find anything with the word "PLAN" anywhere, enter *%PLAN%*, but find only things that start with "PLAN", enter *PLAN%*.
- *Is Not Like* - the orders' data must be similar to your entered criteria. The percentage wildcard can also be used here.

When you have entered your query criteria, you can run the query using the **Submit** button.

You can clear the criteria entered by clicking the **Reset** button. This will display the Results Table, as seen below.

The pop-up can be closed with the **Cancel** button or by closing the pop-up window.

You can choose to display data as follows:

- Deliver From.
- Deliver By.
- Customer Ref.
- Status Code.
- Execution Status.
- Collect From.
- Deliver To.
- Customer Code.
- TMS Ref.
- Order Entry Date.
- Booking Ref.
- Collection Booking Ref.
- Organisation Code.
- Collect From Code.
- Collect Address Line 1.

- *Collect Address Line 2.*
- *Collect Address Line 3.*
- *Collect Town.*
- *Collect Country Code.*
- *Collect PostCode.*
- *Collect Postal Region.*
- *Deliver To Code.*
- *Deliver Address Line 1.*
- *Deliver Address Line 2.*
- *Deliver Address Line 3.*
- *Deliver Town.*
- *Deliver Country Code.*
- *Deliver PostCode.*
- *Deliver Postal Region.*
- *Collect From.*
- *Collect By.*
- *Owner Location Name.*
- *Owner Address Line 1.*

- *Last Updated By.*
- *Last Updated Date.*
- *Last Active Change By.*
- *Last Active Change Date.*
- *Last Process Id.*
- *Update Counter.*

The Screen has the following additional actions on the screen header:

-  **Print** - you can print the trips with this button.

3 User Access Audit

You can use this screen to see audit information relating to users logging on and off the system

The screenshot shows the 'User Access Enq' screen with a search bar and several filter buttons. Below the filters is a table of login events. The table has columns for Event, Username, Status, Event Date, and Description. The data shows multiple successful logins for various users including 'BOB', 'DAVIDH', 'ADM', and 'PAUL' on dates ranging from 12/06/2020 to 15/07/2020.

Event	Username	Status	Event Date	Description
Log Off	BOB	Success	12/06/2020 09:59:29	
Log Off	DAVIDH	Success	25/07/2020 10:05:51	
Log Off	ADM	Success	25/07/2020 14:05:52	
Log Off	ADM	Success	25/07/2020 13:59:02	
Log Off	ADM	Success	25/07/2020 13:45:49	
Log Off	PAUL	Success	25/07/2020 13:45:09	
Log Off	PAUL	Success	25/07/2020 13:44:03	
Log Off	BOB	Success	24/07/2020 15:20:07	
Log Off	DAVIDH	Success	16/07/2020 14:26:35	
Log Off	DAVIDH	Success	16/07/2020 14:24:35	
Log Off	DAVIDH	Success	16/07/2020 14:21:15	
Log Off	BOB	Success	16/07/2020 08:24:01	
Log Off	BOB	Success	15/07/2020 16:17:25	
Log Off	BOB	Success	15/07/2020 16:15:08	
Log Off	BOB	Success	15/07/2020 16:14:30	
Log Off	BOB	Success	15/07/2020 16:12:24	
Log Off	BOB	Success	15/07/2020 16:09:39	
Log Off	BOB	Success	15/07/2020 16:05:47	
Log Off	BOB	Success	15/07/2020 16:05:39
