This screen allows you to maintain the product types in the system. You apply these to order lines and items when you create them in the Orders screen.

Product types

You can query data by and/or choose to display data as follows:

- *Code.*
- *Group.*
- *Description.*
- *Description 2.*
- *Temperature Type.*
- *Hazardous Text.*
- *Default Transport Unit.*
- *Perishable.*
- *Taint Risk.*
- *Active.*
- *Created By.*
- *Created Date.*
- *Last Updated By.*
- *Last Updated Date.*
- *Last Active Change By.*
- *Last Active Change Date.*
- *Last Process Id.*
- *Update Counter.*

The following actions are available on the Details panel:

- ❏ **New** - create a new record.
- 🖫 **Save** - save a new record or changes to an existing record.
- 🗑 **Delete** - delete an existing record.
- ⑦ **Help** - help on this screen.
- ↺ **Undo** - undo change made since last save.
- ✐ **Clear** - clear all fields.
- ▬ **Toggle** - toggle display of all accordion headers.

You can change or add the following information:

- *Code* - the product type.
- *Group* - a drop-down list of all product groups configured in the system. You can configure product groups in the Product Group screen.
- *Description* - the product type description.
- *Description 2* - an additional product type description.
- *Temperature Type* - a drop-down list of all temperature types configured in the system. You can configure temperature types in the Temperature Type screen.
- *Hazardous Text* - general hazardous text.
- *Default Transport Unit* - a drop-down list of all transport units configured in the system. You can configure transport units in the Transport Units screen.
- *Perishable* - a check box indicating whether the product is perishable.

- *Taint Risk* - a check box indicating whether the product is a taint risk.

Contents

1 Temperature Type

This screen allows you to maintain the temperature types in the system. You apply these to product types when you create them in the Product Types screen.

Temperature types maintenance

You can query data by and/or choose to display data as follows:

- *Code*.
