1.1 Carriers section

You can assign the resource to any number of carriers.

You can assign the resource to a carrier by clicking the  **New** button in the section header. The screen will display a pop-up window to allow you to identify the carrier to which you want to assign the vehicle. You can enter a carrier code or click the  **Lookup** button to the right of the value entry to see a list of all carriers. You can select a carrier from this list to select it or close the window to cancel entry. Once you have selected or entered a carrier, you can save the resource to this carrier using the **Save** button. You can cancel adding the resource to the carrier by closing the window.

You can remove a resource from a carrier by selecting the carrier in the table and then clicking the  **Delete** button in the section header.
