User Settings

Contents

1 User Settings

You can use this screen to reset your user password.

The following actions are available on the Details panel:

- **Save** - save a new record or changes to an existing record.
- **Help** - help on this screen.
- **Undo** - undo change made since last save.
- **Clear** - clear all fields.
- **Toggle** - toggle display of all accordion headers.

Once you have changed your password (following the guidelines and instructions on the screen), you can save the changed password with the **Save** button.

Ready for **What's Next, Now**™
