# 1 Load Assignment

This page allows you to assign and de-assign loads to and from a driver.

When displayed, this screen will display tables showing the number of loads currently assigned to the driver and those available loads that you can assign.

Back

Currently Assigned Loads for User: tw John Doe

Site	Load ID	Planned Start Date	Planned End Date	Actual Start Date	Actual End Date	Distance Planned	Distance Actual	Vehicle ID	Load Status	Unassign	Job Details
MAN_TRSPT	ZENL13	31/10/2018 09:00	31/10/2018 12:00	0 00:00	0 00:00	0	0	TW15 ANW	Pending	<input type="checkbox"/>	<a href="#">View Jobs</a>

Unassign Loads

Available Loads

Site	Load ID	Planned Start Date	Planned End Date	Actual Start Date	Actual End Date	Distance Planned	Distance Actual	Vehicle ID	Load Status	Assign	Job Details

Assign

The tables display a single line for each load found.

Both tables show the following information:

- *Site.*
- *Load Id.*
- *Planned Start Date.*
- *Planned End Date.*
- *Actual Start Date.*
- *Actual End Date.*
- *Distance Planned.*
- *Distance Actual.*
- *Vehicle ID.*
- *Load Status.*

The tables only show loads as status *Pending*, *Assigned* or *In Progress*.

Both tables colour the rows to denote the status:

- *Pending* - Grey
- *In Progress* - Amber

To assign loads to the driver, you check the box against the load(s) to be assigned in the "Available Loads" table and then click the **Assign** button.

To remove loads from the driver, you check the box against loads to be de-assigned in the "Currently Assigned Loads for User" table and then click the **Unassign Loads** button. **Note:** You cannot de-assign loads that are in progress.

You can see the job details against any load (assigned or unassigned) by clicking the *View Jobs* link against the load in

the grid. You will be taken to the **Jobs** screen, where the jobs for that load will be displayed.
