## 3 Functional Overview

### 3.1 Client Requirement

Change required to "CN Warehouse Extract" to have two additional fields added 'OMS Ref' and 'Schedule' Copy from estimate

### 3.2 Solution

The OMS Ref and Schedule will be added to the end Warehouse extract portion of the CSV package, the new output will be as follows:

Load Date, Depart Time, Trip ID, Carrier, Trailer ID, Trailer Type, Book Date, Book Time, Destination, Deliver For, Customer, Lifts, Cases, Customer Ref, Loading Ref, Delivery Point Ref, **OMS Ref**, **Schedule**.

### 3.3 Scope

This change will be applied to system version 10.5.0 CONTST and once approved CONPRD.

### 3.4 Data

The CL cursor in the CSV.Write\_Warehouse\_Extract procedure will be updated to select OMS\_REF and SCHED\_NAME.

The OMS\_REF will be selected from SCH\_HAULAGE\_ACTIVITY and the SCHED\_NAME will be selected from SCH\_TRIP\_STOP. Both tables are currently accessed within the cursor for other information so no additional where clauses are required.

The two fields will be added to the v\_file\_rec string , which stores the information to be displayed in the CSV file.

## 4 Functional Description

The two additional fields will be added to the end of the Warehouse Extract and will appear at the end of the CSV file.
