3 FUNCTIONAL OVERVIEW

3.1 Client Requirement

Request Summary

Add fields to CN Trip and Order Detail Extract.

Request Detail

Actual Distance (Adjacent to Planned Distance), Stop Type (eg SU,DL,PK,CL adjacent to Stop Number)

3.2 Solution

3.3 Scope

The CN Trip and Order Detail Extract report will be altered to display a new Stop Type field. This will be taken from the SCH_TRIP_STOP.STOP_TYPE data and will be displayed after the existing Stop Number field. In addition, a new Actual Distance field will be added after the existing Total Distance field. The Total Distance field will be renamed Planned Distance. The Actual Distance field will be derived from the ODO_END field minus the ODO_START field and will be displayed for trips that are at status CONFIRMED and COMPLETED only. For all other values of trip status, the Actual Distance field will be displayed as 0.
