2 276314 - DU-86YEBA/ Move group of orders to the schedule

Ready for **What's Next, Now**™

3 FUNCTIONAL OVERVIEW

3.1 Client Requirement

Moving orders to different schedules has to be done order by order individually. Selecting a group and moving them all in one action would save a lot of time. There is currently quite a significant administration task to move batches of orders to different schedules, either earlier or later. Currently each order has to be moved individually.

3.2 Solution

Trip Manipulation screen will be changed to add a new menu ?Move To Schedule? to the unscheduled Order pop up menu to allow user to move the group of orders to the different schedule from the header.

After user selects the ?Move To Schedule? menu, a confirmation screen will pop up to ask user to confirm if they want to carry on moving the orders to the schedule. If yes, open a new screen allow user to choose the schedule number from the list, then press the OK button to save the changes and press the Cancel button to exit the screen.

The same changes should also be made to the Trip Plan screen.
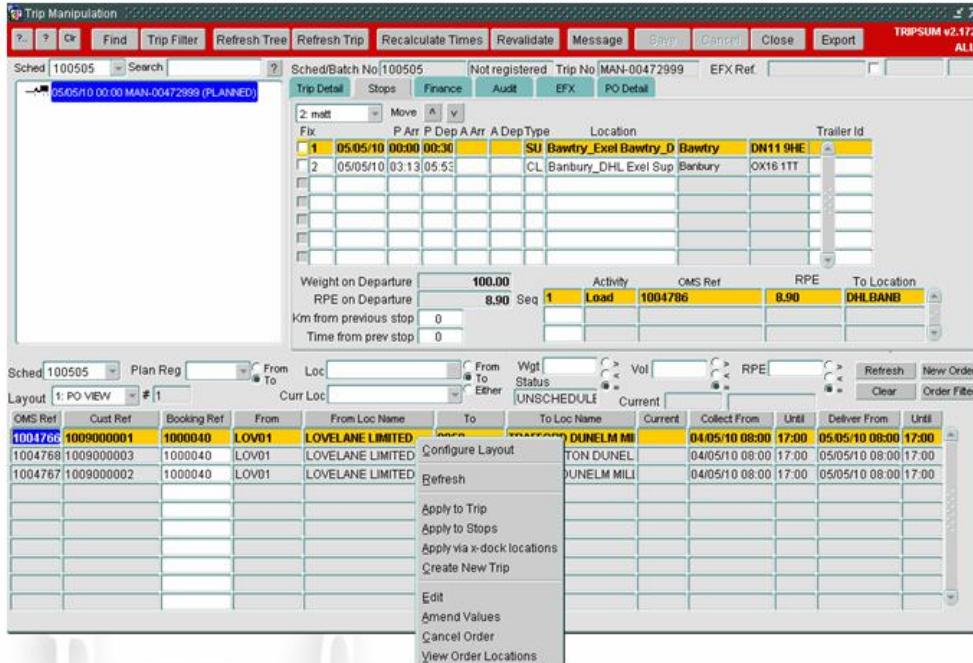

3.3 Scope

This change will be applied to system version 10.5
