1 Carrier Config

The carrier can be configured to have a label format and a manifest format:

The screenshot shows the 'Carrier' configuration for 'DHLTD' (DHL TD EXPRESS). The 'Label Format' is set to 'DHL_Express2' and the 'Manifest Format' is set to 'DHL Express'. The 'Print Manifest' option is selected ('Y'). The 'Print Shipment Label' option is also selected ('N'). Below these settings is a table mapping locations to customers and their corresponding tracking references.
