# 1 Carrier Service Level

The Carrier Service Level tab of the Resources Maintenance screen allows you to specify a cross-reference of carrier service levels.

| Carrier ID | Product Type | Service Level | Carrier Service Level | EDI Carrier Service Level |
|------------|--------------|---------------|-----------------------|---------------------------|
|            |              |               |                       |                           |
|            |              |               |                       |                           |
|            |              |               |                       |                           |
|            |              |               |                       |                           |
|            |              |               |                       |                           |
|            |              |               |                       |                           |
|            |              |               |                       |                           |
|            |              |               |                       |                           |
|            |              |               |                       |                           |
|            |              |               |                       |                           |
|            |              |               |                       |                           |
|            |              |               |                       |                           |
|            |              |               |                       |                           |
|            |              |               |                       |                           |
|            |              |               |                       |                           |
