1 Delivery Targets

The Delivery Targets screen allows desired delivery windows to be entered against a specific location for a specific **Product Type**

Location Id	Prod Type Id	Window Start Offset	Window End Offset

You can enter a new delivery target using the **New** button - the screen will prompt you to enter:

- Location ID - An RDC location. You can look up values with the **Lookup** button or use CTRL-L.
- Prod Type ID - A product type - you can look up values with the **Lookup** button or use CTRL-L.
- Window Start Offset
- Window End Offset

You can **Save** after creating, or **Close** the screen without saving.

You can **Edit** or **Delete** existing delivery targets by selecting the row in the table and then hitting the corresponding button.

The **Close** button closes the screen.
