1 Help:CreateNewPage

You can create new pages from the templates set up for you by following these links:

2 Create Document Title Page

<spoiler><makearticle> Template:Doc_Title </makearticle></spoiler>

3 Create Document Appendix Page

<spoiler><makearticle> Template:Doc_Appendix </makearticle></spoiler>

4 Create Estimate

<spoiler><makearticle> Template:Estimate </makearticle></spoiler>

5 Create Functional Specification

<createarticle> type=createarticle preload=Template:FS align=left default=Enter FS Name Here buttonlabel=Create FS
</createarticle>

6 Create Requirements

<createarticle> type=createarticle preload=Template:REQ align=left default=Enter Requirements Name Here
buttonlabel=Create REQ </createarticle>

7 Create ER Documentation

<createarticle> type=createarticle preload=Template:ER align=left default=Enter Emergency Release Name Here (e.g. ER WMS770 ER003-001) buttonlabel=Create ER </createarticle>

8 Create PATCH Documentation

<createarticle> type=createarticle preload=Template:PATCH align=left default=Enter Patch Name Here (e.g. PATCH WMS770 P091 080512) buttonlabel=Create PATCH </createarticle>
