1 Interface Errors - LogiNext Details

This tab shows the interface messages and details of any messages to LogiNext systems.

The screenshot shows the 'Interface Errors' window with a menu bar at the top containing options like PO Clk, Carrie, XML Se, BMW Or, EDI Audit, Epod A, Order, BNL Or, Debie, TMS-WM, WMS-TM, Web Se, Tesla, and Logine. Below the menu bar is a search area with fields for Trip Id, Oms Ref, Event Type, Status, and Created Date, along with Search and Reprocess buttons. The main area displays a table of messages:

Trip Id	Oms Ref	Event Type	Status	Created Date
FIX-00026839	2051672	P2P	ACK	05/11/2024 14:02
FIX-00026839	2051673	P2P	ACK	05/11/2024 14:02
FIX-00026794		TRP	ACK	05/11/2024 13:52
FIX-00026794	2051494	P2P	ACK	05/11/2024 13:52
FIX-00026794	2051492	P2P	ACK	05/11/2024 13:52

Below the table, there are two sections: 'Request' and 'Response'. The 'Request' section shows a JSON object with details like orderNo, shipmentOrderTypeCd, orderState, distributionCenter, packageWeight, packageVolume, serviceType, paymentType, numberOfItems, partialDeliveryAllowedFl, returnAllowedFl, cancellationAllowedFl, and deliverServiceTime. The 'Response' section is currently empty. At the bottom of the window are Close and Action buttons.

The screen will display the details of all records from the new LogiNext audit detail described above.

You can filter the search using the search criteria in the top of the tab page and clicking **Search**.

You can reprocess the currently highlighted record by pressing the **Reprocess** button, this will then invoke the reprocessing function

Only failed outbound messages will be available to be reprocessed and an error will be shown if any other type of record is selected for reprocessing.

Note: You will not be able to edit data in this screen any errors with trips should be rectified in the planning screen.
