# 1 Location Product Conversion

This allow you to enter product type conversion factors per location.

The screenshot shows a software interface titled "Resource Maintenance" with a sub-header "RE SOURCE v2.198 C-TMS v12.45". The top menu bar includes "Carriers", "Carrier Groups", "Carrier Lanes", "Carrier Types", "Carrier Service Level", "Service Types", "Fixed Charges", "Trailer Types", "Trailer Group", "Trailers", "Drivers", and "Loc Prd Conv". The "Loc Prd Conv" tab is currently selected. The main content area contains a table with three columns: "Location ID", "Product Type", and "Conversion Factor". The first row of the table is highlighted with a yellow background. Below the table are three buttons: "New", "Edit", and "Delete". At the bottom of the window are "Apply" and "Close" buttons.

You can enter:

- Location ID - a lookup is provided.
- Product Type - a lookup is provided.
- Conversion Factor - a number to multiply.
