EMERGENCY RELEASE - CTMS 11.0

RELNOTE ER015-100

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks	Reporter
DATA_ADM_MSEL_FORM_PARAM_327975.sql	Database Script	1.2	327975	-	3	The database script will adjust any configurable layouts for the order lines in the 'Trip Debrief' screen to display the new 'Packed Qty' column between the 'Plan' column and the 'Actual Despatch' column in the 'Order Debrief' tab page. If the 'CHANGE_DEBRIEF_LABELS' system parameter is set to 'Y' then the title of the new column will be renamed 'Pack DU Qty'. The packed quantity may be maintained when the customer is allowed to debrief order lines (i.e. the 'trip Debrief Level' is not 'Off' or 'Items Only') and the order is being loaded from its source location.	Dave Meir
