EMERGENCY RELEASE - CTMS 11.0

RELNOTE ER018-064

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks	Reporter
INT_XML_OUT2.sql	Outbound EDI Package	5.219	333127	-	3	The control records for the LOTS files will be checked prior to processing remove any duplicate records for the event types for the trip, order or trip and order levels. The duplicate control records will be set as processed so that they are not included in the same LOTS file so that the file is not rejected during the update process in Portal. The scenario should not occur unless a problem has occurred during processing so that the control records are not updated as processed so that they are reprocessed during the next run.	Julie Scott

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks	Reporter
INT_XML_OUT2.sql	Outbound EDI Package	5.218	333364	-	3	The CON and MAN XML control records will generate the CITD and Electronic Manifest files and the event type of the control record will be used to determine which location address will be used for the order delivery address for the stop.	Paul Roscoe
