EMERGENCY RELEASE - CTMS 11.0

RELNOTE ER020-016

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks	Reporter
DP_RDT_AUTO.sql	RDT Automated Package	5.40	335861	-	3	A new record will need to be added to the MODULO_43 decode name as follows to override the SPACE check digit as a NULL value: Source Value - NULL Target Value - SPACE Related changes to WCS will be required to be implemented for log 335862. This development will allow a hyphen to be used to identify the OBS suffix for the assets should there also be a customer suffix in the same format. Any other item codes will retain a hyphen. The check digit for the non-asset items will not be stored should the check digit be a space character: the space will then not be displayed in C-TMS nor will it be used in WCS. The check digit of a space character will be included in the Microlise interface file for validating the scans of the barcodes for collection and delivery activities.	Dave Meir
DP_RDT_FAST_LOAD.sql	RDT Fast Loading Package	5.23	"	"	"	"	"

DP_RDT_FAST_UNLOAD.sql	RDT Fast Loading Package	5.34	"	"	"	"	"
