EMERGENCY RELEASE - CTMS 11.0

RELNOTE ER020-056

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks	Reporter
CNT.sql	Contracts package	5.38	335391	INC13787271	5	If business type planning is active, the trip will only be created if the payment can be created if there is not a missing charge condition, for example. If business type planning is not active, the trip will be created if it is not being debriefed and there is not a missing chargeable condition, for example. If the missing chargeable condition is a TRACTOR or a TRAILER TYPE, the audit message will include the text: 'a CHARGE does not include the TRACTOR,' or 'a CHARGE does not include the TRAILER TYPE,'. The audit message will apply to the charges for the orders and the trips but it will only be displayed once if a total cost cannot be obtained. If there are multiple charges that are available for the parties, each individual charge will not be listed to ensure that the error message can be displayed on screen.	KELLY HEMBLING
