EMERGENCY RELEASE - CTMS 11.0

RELNOTE ER023-085

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks	Reporter
INT_XML_IN.sql	Inbound XML Interface Package	5.163	342470	-	2	The time windows for orders entered via C-TMS, Portal or XML files will be calculated based on the available routing for when the routes are inactive for the weekend or for a public holiday. A range of collection dates can be derived for the earliest date that the order can be collected from its source location and for the latest date that the order can be despatched from its local 'collection' depot for onward delivery. The delivery date will remain a single date but it will be calculated from the latest collection date for the order.	Michelle Naumovski
