## EMERGENCY RELEASE - CTMS 11.0

### RELNOTE ER026-015

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks	Reporter
DP_CARRIER.sql	Carrier Database Package	1.67	345373	-	3	<p>Changes have been made to the order packing processes to ensure that the packed date is set after all of the labels have been printed.</p> <p>If labels are not required, the packed date of the order will still be set.</p> <p>These changes apply to manual packing, XML packing and CIPD packing processes.</p> <p>Repacked orders will also update the packed date.</p> <p>The electronic manifest will include the recently packed orders that have tracking references.</p> <p>The electronic manifest will include all orders that exist with tracking references when the first file is produced.</p> <p>The electronic manifest will include all of the orders with tracking references that have been packed since the last manifest file was produced.</p> <p>The concurrent processing of order packing and the electronic manifest will not include the orders that are currently being packed.</p>	Daniel Hammond

						<p>The carrier POD files will update the order/consignment.</p> <p>The order will be updated with a delivered quantity for its lines and subtotalled for the order.</p> <p>If a valid reason code is not derived the order will be updated as fully delivered by default.</p> <p>If the reason code is not valid, a non-conformance will not be recorded for the order.</p> <p>If a valid reason code or type 'FAILURE' is derived the order will be updated as not delivered.</p>
