DATA_ADM_SYSTEM_PARAM_346233.sql	Data Script	1.1	346233	ST-074	3	The order time windows will be updated when the booking status is changed to OFFERED, HELD or released to NOT BOOKED. Delivery orders will only update the delivery time windows. Only the delivery time window will be based on the offset days for the schedule rule from the late available date and time. The delivery time window will be specific to the 4 hour window when the ordered is OFFERED. Collection time windows will update the available and delivery time windows: the available and delivery time windows will be aligned except when the order is OFFERED, then the available time window will be specific to the 4 hour window and the delivery time window will extend from the early available date and time to the number of offset days for the schedule rule.	Dave Meir
