EMERGENCY RELEASE - CTMS 11.0

RELNOTE ER027-052

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks	Reporter
OMS.sql	Order Management Package	5.206	348089	INC21284577	5	<p>The validation of the order will write an audit record for the setting of the delivery type ('Delivery type set ...') and this audit record will have the latest order status.</p> <p>This type of audit record will be written for specific customers when the cost centre of the order has system parameter 'OMS_SET_DELIVERY_TYPE' set to 'Y'.</p> <p>The order status must be the latest order status should the order audit record be assessed to determine the order status when the order is reset from status 'NEW' after being referred for Paragon planning but the order is not included on a changed route/trip.</p> <p>The order will then not appear in the order well for trip planning if the order does have an actual status of 'SCHEDULED'.</p>	Denis Starodubov
