EMERGENCY RELEASE - CTMS 11.0

RELNOTE ER028-087

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks	Reporter
DP_INT_TMS_WMS_IN_STUB.sql	TMS-WMS Interface database package	1.12	351161	-	3	<p>The MAR and PACK messages for the creation of transport order items for picking containers and pack references have been changed to be on hold until a storage location is known for a picking container for the sales order.</p> <p>This check will be applied when the RFPC owner-level warehouse rule is Y.</p> <p>The transport order items will be stored in the marshalling rack location as advised.</p> <p>The marshalling rack will be stored against the order item if it is known (i.e. it has been picked via RDT) otherwise the marshalling location of the sales order will be used for manual picking and packing.</p> <p>The 441 message will use the current location of the order item.</p> <p>The 442 message will use the bay number of the despatching trip which will be updated to match the marshalling location for a MAR message.</p>	Craig Hopcroft

 **Warning:** A manual change is required with this release.
