# 1 Introduction

This document describes the contents of this Aptean POD - *Calidus* Edition device release.

## 1.1 Platforms/Databases

The release will be tested against & supported only for the following platform/database combinations:

- Android O/S 4.4.x Kit Kat or higher on previously verified devices

## 1.2 Related Documents

None

## 2 User Notes

This is a release of the Apteian POD - Calidus Edition device application.

### 2.1 Released Incidents / Changes

This release contains the following fixes/changes:

535418

- Epod - pictures in portrait

Fixed an issue which caused pictures taken in portrait orientation to be sent back to the server (and therefore shown on any report) in landscape orientation

585123

- Price tag line not populated

Fixed an issue which caused the price tag on job updates for service products to not be populated (preventing the job update from being successfully processed)

### 2.2 Setup

Details of any system setup required by either Apteian or Client.

By	Reference	Description
None		

### 2.3 User Instructions

User details and instructions of the new or changed process

Topic	Action	Description
Service	Info	When amending the reg, the reg must be 12 characters or less. The device will validate this when you try to move tabs or save/complete the service.
Service	Add new vehicle	When trying to add a new vehicle, the reg must be 12 characters or less. The device will validate this when you try to add the new vehicle.

### 2.4 Performance Notes

It is not thought that this change will have any impact on performance although it is our recommendation that the performance of all areas of the application is validated during testing to ensure that performance is still good.

### 2.5 Related Releases

Android mobile device application release 4.5.0.0 must be active prior to this release.

### 2.6 Technical Changes & Special Notes

#### 2.6.1 Technical Changes

None

#### 2.6.2 Special Notes

None
