1.2 Related Documents

None

Ready for **What's Next, Now**™

2 User Notes

This is a release of the Aptean POD - Calidus Edition device application.

2.1 Released Incidents / Changes

This release contains the following fixes/changes:

595626

- Added a new Pending Data screen that allows the user to view pending data, change the priority on pending data messages and send pending data messages to a text file one the device.

594938

- Fixed the service product search so that the customer is specified, thus ensuring the correct price is retrieved

2.2 Setup

Details of any system setup required by either Aptean or Client.

By	Reference	Description
None		

2.3 User Instructions

User details and instructions of the new or changed process

Topic	Action	Description
Service	Info	When amending the reg, the reg must be 12 characters or less. The device will validate this when you try to move tabs or save/complete the service.
Service	Add new vehicle	When trying to add a new vehicle, the reg must be 12 characters or less. The device will validate this when you try to add the new vehicle.

2.4 Performance Notes

It is not thought that this change will have any impact on performance although it is our recommendation that the performance of all areas of the application is validated during testing to ensure that performance is still good.

2.5 Related Releases

Android mobile device application release 4.5.0.0 must be active prior to this release.

2.6 Technical Changes & Special Notes

2.6.1 Technical Changes

None

2.6.2 Special Notes

None
