						7. Damages

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks
DP_MCS_SCANNING.sql	MCS Scanning Package	5.55	366711	-	1	Pallet building validation has been fixed to that, under new pallet building validation rules, packages passing through different final delivery depot (ROCs) can no longer be palletised together. This also fixes the suggestion of pallets when an item is scanned.
