EMERGENCY RELEASE - CTMS 11.0

RELNOTE ER038-010

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks
ORDERS.fmx	Orders Form	2.437	01573388	DEV-77660	3	I have made a change to the Print Labels screen in the Orders screen to ensure that the labels are reprinted, repacked or produced for the first time for an order. The user will see the appropriate text in an information message. The default carrier must exist for an unscheduled order to reprint labels as per the development. Selected labels can only be reprinted if the delivery carrier has not been changed. All labels will either be reprinted or repacked and printed depending on the comparison between the current carrier and the previous carrier. Labels can be reprinted for an unscheduled order for the default carrier. Labels can be reprinted for a scheduled order if the delivery carrier has not been changed, otherwise the order will be repacked and the labels printed for the new carrier.

Ready for **What's Next, Now**™
