EMERGENCY RELEASE - CTMS 11.0

RELNOTE ER040-015

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks
INT_XML_IN.sql	Inbound EDI Database Package	5.231	01896927	-	1	The EDI parameter 'ALLOW_INCREMENT_DSPD' will control if an order can include further despatches from a 'DSPD' message. The default value will be 'N'. If this parameter is 'Y', the order can be incremented with further despatch information. If this parameter is 'N', the order can be updated with despatch information. This parameter will only be active for orders that have not been packed to generate carrier labels. Orders that have not been packed or that have been updated manually only with packed and despatched quantities can be incremented or updated as per the value of the parameter.

Ready for **What's Next, Now**™
