TRG_SOI_XML.sql	Database Trigger	5.25	02428249	-	2	<p>A new EDI process has been introduced, featuring a parameter called 'SEND_EVENT_TRACKING'. When this parameter is set to 'Y', it incorporates the 'EVENT_TRACKING' section. Additionally, five new tags have been introduced in the 'MILESTONE' section: SEAL_NUMBER, FROM_LOC_LAT, FROM_LOC_LONG, TO_LOC_LAT, and TO_LOC_LONG. These tags will only be included if the 'SEND_EVENT_TRACKING' parameter is active and their values are not NULL.</p> <p>A revised format of the TripOrder.xsd has been developed to align with these requirements, ensuring that the five new tags are updated under MILESTONE section accordingly.</p>
