EMERGENCY RELEASE - CTMS 12.0

RELNOTE ER047-034

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks
PLANNING.fmx	Planning screen	1.161	645360	03557646-23	2	Added Reset Auto-Scheduling and Carry Forward menu options to the Planning screen. Access to this new functionality is controlled by the new system parameter 'RESET_MANUAL_SCHEDULE' via a Y/N value setting. When active, the pop-up menu for orders at a stop will now include the new "Carry Forward" menu option. The "Reset Auto Scheduling" and "Carry Forward" options will be added to the popup menu on the order well. The "Move to Schedule" option in the popup menu of the order well will now in addition to the schedule movement, change the manual schedule flag on the selected orders to allow the orders to be re-planned automatically. Note: when carrying forward, a pop-up of routes is displayed (and selected via clicking the desired row/route). The tester should refer to the data presented in the pop-up to reconcile the effects of the update. Order changes are recorded in the auditing information provided for orders.
