EMERGENCY RELEASE - WMS 810

RELNOTE ER035-045

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks
DP_EDIGEN_PRE_ADVICE_VAL.sql	Inbound EDI GRN Pre-Advice DB package	4.84	367211	-	3	The inbound EDI GRN pre-advice files will be uploaded when duplicate advice/container not allowed: The file cannot contain the same pre-advice number more than once except when the first instruction is to delete the existing GRN for the pre-advice number. A GRN must exist to delete the pre-advice number. If a GRN for a pre-advice number is being replaced, the sequence must be to delete then to insert to be successful. The transaction numbers in the XLS file will match the transaction sequence numbers that have been received in the file. The error messages in the XLS file and the log file will indicate the advice note number and the container number when: Delete:
