EMERGENCY RELEASE - WMS 810

RELNOTE ER036-026

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks
DATA_WAREHOUSE_RULES_CONTROL_372865.sql	Database Script	4.1	372865	-	2	A new owner rule ECDA ("Extra checks for duplicate advice to create GRNs") will be available to configure. This rule can be set to Y when the owner of the pre-advised receipt has used the same advice note number for a GRN to perform extra validation to ensure that the user is informed that there are existing order lines for different SKUs that cannot be recreated. The user can upload a pre-advised receipt using the Update action in a fixed-length file format to update these existing order lines instead of the default Create action. Note that the POD format not include this extra validation so that they can generate new GRNs for each advice note.
DP_EDIGEN_PRE_ADVICE_VAL.sql	Inbound EDI Pre-advice Validation Database Package	4.87	"	"	"	"
