

EMERGENCY RELEASE - WMS 810

RELNOTE ER039-009

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks
DP_DESPATCH.sql	Despatch Confirmation Database Package	4.103	01594474	-	3	<p>Amendments to the WCS shipment pallet despatch process and the despatch confirmation process.</p> <p>Extra auditing of packing and shipment activity by users in C-WMS screens has been included to track when users delete records.</p> <p>The 'Despatch Confirmation' screen has been changed to prevent the user updating the despatch details or despatching stock that exists on a shipment pallet - the manual confirmation process and shipment pallet process will be kept separate to ensure that the users operate by a single method.</p> <p>The user will be warned that there is stock for an order on a shipment pallet when the query is run for the selection criteria.</p> <p>The user will be informed that there is stock for an order on a shipment pallet when the 'Details' screen is opened.</p> <p>The user will be able to 'Deassign' the palletised orders when prompted upon querying the 'Despatch Confirmation' screen, or via a new 'Deassign Order' button.</p>

Ready for **What's Next, Now**™

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks
						<p>This button will be available in the 'Options' when the user has used a route/load as part of the selection criteria.</p> <p>The user will then not be able to amend the despatch details until the order is depalletised.</p> <p>Unsuccessfully despatch details will be rolled back for the user to review the reason why.</p> <p>The despatched quantities will not be initialised in the 'Despatch Confirmation' screen or its 'Details' screen.</p> <p>However, the user can amend the despatched quantities in the 'Details' screen with a reason code but only when the order does not exist on a shipment pallet.</p> <p>The other despatched quantities will be set when the user confirms the despatch.</p> <p>The stock that exists on a shipment pallet must be despatched in the 'Shipment Pallet Maintenance' screen or using WCS.</p>
