EMERGENCY RELEASE - CTMS 11.0

RELNOTE ER039-011

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks
WHS2054.fmx	Change of Ownership Oracle Form	4.12	01629653	-	2	The rent charges were being generated for 'old' transactions because the same pallet had been used to receive stock for different owners and stock codes. When the ownership of the stock on the pallet was changed the 'old' transactions are then assessed because they still exist for the new owner and stock code and the stock for the new pallet now requires rent to be charged. The change of ownership will now reset the date of receipt for the new stock to be when the change was made rather than when the original pallet was received. Then the 'old' transactions will be omitted from the current rent cycle.

Ready for **What's Next, Now**™
