

EMERGENCY RELEASE - WMS 810

RELNOTE ER039-018

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks
DP_RDT_DESP_PROCESS.sql	RDT Despatch Confirmation Database Package	4.11	00209798	-	3	<p>The dispatch confirmation process has been changed to inform and prevent the user dispatching orders that have been packed onto shipment pallets.</p> <p>Users will be informed that the order has stock on a shipment pallet and the user will have the option to deassign a palletised order from a route/load should the rest of the orders need to be dispatched manually.</p> <p>The dispatched quantities will not be defaulted to the picked quantities in the Despatch Confirmation screen to ensure that running totals can be maintained for the orders that have been packed onto shipment pallets.</p> <p>These quantities will be set for the manual dispatch confirmation when it is started.</p> <p>The user will still be able to amend the dispatched quantities in the screen prior to dispatch confirmation by entering a reason code for the quantity to be dispatched.</p> <p>An email can be sent for an error message during the dispatch confirmation process of the shipment pallets using RDT.</p>

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks
						A resolution email will also be sent should the problem be resolved, for example, a database lock has been released and the process could be resubmitted.
