EMERGENCY RELEASE - WMS 810

RELNOTE ER040-017

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks
DP_WMS_ALLOC.sql	WMS Allocation	4.191	01812787	-	2	Add new Serial number ADSN (Allow Duplicate Serial Numbers for Owner) rule. The 'Rule' can be set either at owner or warehouse level. If set, users will be able to receive and hold the same serial number against multiple stock codes. Goods receipts will allow for same serial number to be receipted against multiple stock codes. Sales order allocated and picking will be changed to ensure that the correct serial number information is updated. Additional Comments ADSN rule only works when linked to VAPS (Validate Against Pre-Advised Serials) rule, as change needs serial number record to be populated with a valid stock code.

Ready for **What's Next, Now**™

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks
						It is assumed that no single sales order will contain the same serial number multiple times, as no sales order will despatch stock linked to multiple trials. NOTE: This change only covers the goods receipt and sales order process. Other processes such as adjustments, movements etc. will be covered by a separate change request.
