

EMERGENCY RELEASE - WMS 810

RELNOTE ER044-015

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks
DATA_WAREHOUSE_RULES_CONTROL_02723636.sql	Data script	4.1	02723636	-	3	Add new AYEN (Algo Y - Exclude non-owner stock). For GRNs putaway using algorithm Y and multi-deep locations, add new checks to see if location contains stock for other owners. Issue found was that validation only currently applied once a pallet had been put into location. New validation runs even if the location is marked as empty for the pallet type.
DATA_WAREHOUSE_RULES_02723636.sql	Data script	4.1	"	"	"	"
DP_WHS2185.sql	Suggested location	4.34	"	"	"	"

New Parameters			
Parameter Name	Config Level	Setting Value	Result
AYEN	Owner/ Warehouse	-	Will check initially for OWNR level rule value. If blank, will check for WHSE level rule value.

Ready for **What's Next, Now™**

New Parameters			
(Algo Y - Exclude non-owner stock)	-	Y	Will exclude locations that contain stock held by other owners even if location marked as empty for pallet type. Only affects pallets putaway using Algo Y functionality.
-	-	No or any other setting	Standard default functionality applied
