SOS7050.fmx	Order Returns and Amendments	4.15	03776627	-	3	Problem actually in Order Returns and Amendments screen which allows an item to be added back on to an order after the whole order has been returned but did not reset the Whole Order Return flag against the order lines. Changes made to SOS7050 to: Reset the Whole Order Return flag back to NULL if an item is added back on after clicking 'Return Whole Order' but before clicking 'Validate and Submit Amendment'. Prevent further amendments an order after whole order has been returned by clicking 'Return Whole Order' then 'Validate and Submit Amendment'. This fixes an issue where the Order Amendments Report did not report orders correctly after a whole order had been returned but an item (phone card) had then been added back on.
