1 SUMMARY INTRODUCTION

1.1 INTRODUCTION

The main aim of this document is to provide *CALIDUS* TMS users with the level of detail required to accurately test all software included in the patch. The document also contains set-up and configuration details to enable the user to configure the system correctly for the new functionality to work.

1.1.1 GLOSSARY OF TERMS

Term	Meaning
C-TMS	Transport Management System
C-WMS	Warehouse Management System
CR	Change Request
C-WCS	Warehouse Control System
C-ePOD	Electronic Proof of Delivery
C-MCS	Mobile Control System
C-TTM	Track and Trace Management
EDI	Electronic Data Interchange
TID	Testing Issue Development, or Log

1.2 TESTING PROCESS

1.2.1 TIDs AND RESOLUTION

If there are any areas of the functionality that are not acceptable or do not meet the requirement specified in the Change Request then these should be expressed by raising a TID.

1.2.2 FINAL 'END TO END' TESTING

Prior to release to a production database, a full 'End to End' test is required on the test system by all sites using the database. Once this is signed off, a release date can be arranged.

1.2.3 AUTHORISATION

Authorisation from nominated release personnel only will be required when requesting a release to a production environment

2 DEVELOPMENT

2.1 Log Number: 01560840

Summary of Call	Courier Label
Detail of Fix	Changes to the standard Label for 3PL Carriers
Set-up and Configuration	No set-up/configuration required

2.2 Log Number: 01559665

Summary of Call	Brexit Report
Detail of Fix	New Brexit Import and Extract
Set-up and Configuration	No set-up/configuration required

2.3 Log Number: 01561481

Summary of Call	Sub Contractor Extracts
Detail of Fix	New extract to report Sub Contractor trips
Set-up and Configuration	No set-up/configuration required

2.4 Log Number: 01575864

Summary of Call	Issue with PWS ETAs
Detail of Fix	EPOD Amendment to prevent ETAs from being set incorrectly when there is no response
Set-up and Configuration	No set-up/configuration required

2.5 Log Number: 01575989

Summary of Call	IF007 CFX Carrier Change Further development to 378264: The trip status cannot be updated from PLANNED to ACCEPTED when the carrier is the specified CFX carrier, and CFX is being sent, and the trip status is being checked for CFX.
Detail of Fix	The trip status can be updated from TENDERED to ACCEPTED for the same setup. Other carriers can update the trip status from TENDERED to ACCEPTED for the same setup. The trip status can be updated from TENDERED to ACCEPTED if a CFX carrier is not specified, or CFX is not being sent, or the trip status is not being checked for CFX.
Set-up and Configuration	No set-up/configuration required

2.6 Log Number: 01568006

Summary of Call	EXTRACT SUITE/Order_LN_Type/ORDER_LINE_DATA The ORS reports for type 'ORDLN_TYPE' can be created using 'Schedule' as a range of values.
Detail of Fix	New fields called 'From Location Name', 'From Planning Region', 'To Location Name' and 'To Planning Region' are available for selection. The report can include these fields for counting and as selection criteria.
Set-up and Configuration	No set-up/configuration required

2.7 Log Number: 01580000

Summary of Call	WREQ0051553 Brexit Report - Changes Added 3 new fields to the Oracle Report Suite report ""BRX_PROD"" to allow the user to see: <ul style="list-style-type: none"> • Units per package • Trip number without Prefix • Excise Code (titled as VAT code)
Detail of Fix	The reports function through cross-reference to imported WMS_PRODUCT_XREF data. Note that VAT Rate must still be specified when importing data into this file, even if the value is not used, as this is a required field.
Set-up and Configuration	No set-up/configuration required

2.8 Log Number: 01576048

Summary of Call	XML Amendment
Detail of Fix	Changes to the XML output to configure the value is SO_REF
Set-up and Configuration	No set-up/configuration required

2.9 Log Number: 01580510

Summary of Call	Brexit Report
Detail of Fix	Fix to allow Import Fails and Results to be viewed
Set-up and Configuration	No set-up/configuration required

2.10 Log Number: 01584725

Summary of Call	Microlise UAT
Detail of Fix	Changes to the Microlise interface to accommodate no smartpod
Set-up and Configuration	No set-up/configuration required

2.11 Log Number: 01571516

Summary of Call	LOAD Message Triggers
Detail of Fix	A new EDI parameter called 'PLANNED_CARRIER' can be used to enable 'LOAD' messages to be generated when the EDI process has the trigger 'STATUS' set to 'PLANNED'.
Set-up and Configuration	This triggering will apply when trips are created at that status and orders are assigned to the trip at that status and the carrier of the trip is in a record for the EDI parameter. No set-up/configuration required

2.12 Log Number: 01592379

Summary of Call	Improve Here Maps Data
Detail of Fix	Improve consistency of data retrieved from HERE maps by batching data.
Set-up and Configuration	No set-up/configuration required

2.13 Log Number: 01592591

Summary of Call	Track and Trace EDI1214
Detail of Fix	New integration for EDI1214
Set-up and Configuration	No set-up/configuration required

2.14 Log Number: 01596335

Summary of Call	CR41 - Additional Development Requirements
Detail of Fix	Allow One Way bar codes to be scanned without errors
Set-up and Configuration	No set-up/configuration required

2.15 Log Number: 01598884

Summary of Call	Changes to Customer Loading Sheet
Detail of Fix	Changes to the Loading Sheet to use blank lines to indicate a return to depot
Set-up and Configuration	No set-up/configuration required

2.16 Log Number: 01587702

Summary of Call	New Decode ORS Type
Detail of Fix	New ORS report type to report on Import Decodes
Set-up and Configuration	

Registry/Rules Settings		
Path & Name	Setting Value	Result
TRM_EXCL_REG_AUTO	Planning Regions	Locations in these planning regions are excluded from scheduling

2.17 Log Number: 01622110

Summary of Call

Network Issues

Detail of Fix

Update ETAs when they have already been updated

Set-up and Configuration

New Parameters			
Parameter Name	Config Level	Setting Value	Result
ORD_NO_DEL_FOR_FAILS	COST_CENTRE	C	Generates cancellation messages for 'LOTS' for 'FAILED' orders instead of delivered messages.
ORD_NO_DEL_FOR_FAILS	COST_CENTRE	Y	Prevents delivered messages and cancellation messages being generated for 'LOTS' for 'FAILED' orders.
ORD_NO_DEL_FOR_FAILS	COST_CENTRE	N	Generates delivered messages to 'LOTS' for 'FAILED' orders or orders at another status.

2.18 Log Number: 01612846

Summary of Call

Inbound CFX Interface

Detail of Fix

Process files inbound from CFX

Set-up and Configuration

No set-up/configuration required

2.19 Log Number: 00211385

Summary of Call

Extra changes for C-TMS Extract Suite

ORS extracts will display data that contain line feeds in the same column on one line when produced via the ORS screen or via EDI.

Detail of Fix

The EDI report value 'NO_TEXT_CONVERSION' will determine if the file contains a text indicator for the column of data for the type of data in XLS.

Set-up and Configuration

No set-up/configuration required

2.20 Log Number: 01631677

Summary of Call

EDI114 Interface

Detail of Fix

Changes to the EDI1214 interface

Set-up and Configuration

New Parameters			
Parameter Name	Config Level	Setting Value	Result
EPOD_JOB_RETAIN_TIMES	COST_CENTRE	Y	Only updates the actual stop times when they are not set.
EPOD_JOB_RETAIN_TIMES	COST_CENTRE	N	Updates the actual stop times.
LOTS_SEND_WHEN_VEHICLE_SCANNED	COST_CENTRE	VLI,VLD,VUI	The listed LOTS messages types will be held until a vehicle scan has been received for the order.
LOTS_SEND_WHEN_VEHICLE_SCANNED	COST_CENTRE	N	All LOTS message types will be sent without delay.

2.21 Log Number: 01638635

Summary of Call	Changes to the Invoice Process for actualising payments
Detail of Fix	Allow all payments for customers with ORDER_COLLECTION setting to be actualised, regardless of delivery type
Set-up and Configuration	No set-up/configuration required

2.22 Log Number: 01636291

Summary of Call	Prevent scheduling when a new reference DNS is included
Detail of Fix	Manual schedule is set to prevent scheduling
Set-up and Configuration	No set-up/configuration required

2.23 Log Number: 01636354

Summary of Call	Cut off times derived from product type and du category
Detail of Fix	Set the delivery dates based on new cut off tables
Set-up and Configuration	No set-up/configuration required

2.24 Log Number: 01640571

Summary of Call	Carrier Rules
Detail of Fix	Changes to the carrier rules configuration
Set-up and Configuration	No set-up/configuration required

2.25 Log Number: 01581745

Summary of Call	Signature Segment
Detail of Fix	Fix to outbound XML Del to include <ORDERS> tag and removal of Stop level signatures.
Set-up and Configuration	No set-up/configuration required

2.26 Log Number: 01580373

Summary of Call	Screening Fee
Detail of Fix	To prevent scheduling issues and Screening commit issues, rating will only be processed in validate order for UNSCHEDULED orders.
Set-up and Configuration	No set-up/configuration required

3 SUPPORT INCIDENTS

3.1 Log Number: 00194616

Summary of Call

Data changes to Brexit report and CFX interface

Detail of Fix

Changes following UAT to link Brexit report to alternative item id and remove OMS_REF from CFX outbound SO_REF tag

Set-up and Configuration

No set-up/configuration required

3.2 Log Number: 01573976

Summary of Call

QSTN - Portal/CTMS query (1)

"The system parameter 'ORD_NO_DEL_FOR_FAILS' can be configured by cost centre with a new value of 'C' to generate cancellation messages for 'LOTS' for 'FAILED' orders instead of delivered messages.

The existing value of 'Y' can be used to prevent delivered messages and cancellation messages being generated for 'LOTS' for 'FAILED' orders.

Detail of Fix

The existing value of 'N' (which is the default value) can be used to generate delivered messages to 'LOTS' for 'FAILED' orders.

Orders at another status will continue to generate delivered messages to 'LOTS' when a non-conformance is recorded."

Set-up and Configuration

New Parameters			
Parameter Name	Config Level	Setting Value	Result
ORD_NO_DEL_FOR_FAILS	COST_CENTRE	C	Generates cancellation messages for 'LOTS' for 'FAILED' orders instead of delivered messages.
ORD_NO_DEL_FOR_FAILS	COST_CENTRE	Y	Prevents delivered messages and cancellation messages being generated for 'LOTS' for 'FAILED' orders.
ORD_NO_DEL_FOR_FAILS	COST_CENTRE	N	Generates delivered messages to 'LOTS' for 'FAILED' orders or orders at another status.

3.3 Log Number: 01590589

Summary of Call

Portal tracking not factoring ePOD deconsolidation

Detail of Fix

New system parameters called 'EPOD_JOB_RETAIN_TIMES' and 'LOTS_SEND_WHEN_VEHICLE_SCANNED' will be available to retain the actual stop times for the trips and to hold messages for LOTS/Portal until a vehicle scan is received.

Set-up and Configuration

New Parameters			
Parameter Name	Config Level	Setting Value	Result
EPOD_JOB_RETAIN_TIMES	COST_CENTRE	Y	Only updates the actual stop times when they are not set.
EPOD_JOB_RETAIN_TIMES	COST_CENTRE	N	Updates the actual stop times.
LOTS_SEND_WHEN_VEHICLE_SCANNED	COST_CENTRE	VL,VLD,VUI	The listed LOTS messages types will be held until a vehicle scan has been received for the order.
LOTS_SEND_WHEN_VEHICLE_SCANNED	COST_CENTRE	N	All LOTS message types will be sent without delay.

3.4 Log Number: 01611368

Summary of Call

Calidus C-TMS Extract Suite

"The ORS types 'EX_TRIP' and 'TRIP_TYPE' will be installed in the databases where they do not exist.

'TRIP_TYPE' will include 'ODO Start' and 'ODO End'.

Detail of Fix

ORS extracts will display data that contain line feeds in the same column on one line when produced via the ORS screen or via EDI.

The EDI report value 'NO_TEXT_CONVERSION' will determine if the file contains a text indicator for the column of data for the type of data in XLS."

Set-up and Configuration

No set-up/configuration required

3.5 Log Number: 01616829

Summary of Call

REA - INC37936465 - Scanning Query from C-TMS

Detail of Fix

"The change of bay number for a trip or an order item will be audited to review when a load message is sent to C-WCS for and after scanning.

A '441' loading message will be generated for the new dispatch bay.

An item will be updated to the dispatch bay for the trip when it is in a different dispatch bay or a grid location.

An item will be updated to the dispatch bay for the trip when it is received on a '831' unloading message for a collection or a cross-dock trip and there is a delivery trip present for its order."

Set-up and Configuration

No set-up/configuration required

3.6 Log Number: 01631034

Summary of Call

Consolidate lines when sending trip to Microlise

Detail of Fix

Set accepted will consolidate any duplicate order lines to prevent issues in Microlise

Set-up and Configuration

No set-up/configuration required

3.7 Log Number: 01634690

Summary of Call

INC38356906 - "DU Not expected, please take to sin bin" Error

Detail of Fix

The DUN import process will generate 431 messages for C-WCS for Manifest Collections when the order is being collected into a different depot to the one that has been pre-advised for the manifest.

Set-up and Configuration

No set-up/configuration required

4 BUGS

4.1 Log Number: 00378509

Summary of Call

C-TMS not translating all the data
A 4933 order will be replaced by a 4987 order.

The 4933 order will be unscheduled from all its trips.

Detail of Fix

The 4987 order will be scheduled on the same trips as the 4933 order had previously.

A valid 4987 order will be scheduled if the trip stops are identified as the 4933 order is unscheduled.

An INVALID 4987 will not be scheduled.

Set-up and Configuration

No set-up/configuration required

4.2 Log Number: 01572881

Summary of Call

Bug fixes around location zone setup in TMS

Detail of Fix

A change has been made for the OR3 interface to assess the location zones and schedule rules for a generic WEB_CUST customer for the group of customers when the actual customer of the order does not have its own schedule rules to apply to the calculation of the collection time windows of the order when it is validated.

Set-up and Configuration

No set-up/configuration required

4.3 Log Number: 01572900

Summary of Call

EDI interface error in TMS

Detail of Fix

The inbound EDI order process will assess the items and their contents and not specifically the commodity code.

Set-up and Configuration

No set-up/configuration required

4.4 Log Number: 01575387

Summary of Call

WOC to WCS Messages

Detail of Fix

Control flow of messages from WOC to WCS

Set-up and Configuration

Registry/Rules Settings		
Path & Name	Setting Value	Result
WOC_MSG_SEND_COUNT	Number	Any number greater than zero is the max messages queued in one run

4.5 Log Number: 01573388

Summary of Call

Query on functionality

I have made a change to the Print Labels screen in the Orders screen to ensure that the labels are reprinted, repacked or produced for the first time for an order.

The user will see the appropriate text in an information message.

The default carrier must exist for an unscheduled order to reprint labels as per the development.

Detail of Fix

Selected labels can only be reprinted if the delivery carrier has not been changed.

All labels will either be reprinted or repacked and printed depending on the comparison between the current carrier and the previous carrier.

Labels can be reprinted for an unscheduled order for the default carrier.

Labels can be reprinted for a scheduled order if the delivery carrier has not been changed, otherwise the order will be repacked and the labels printed for the new carrier.

Set-up and Configuration

No set-up/configuration required

4.6 Log Number: 01574638

Summary of Call

Booking Status

Detail of Fix

Added system params to allow the Booking Status and Order Status fields to be defaulted to the value specified.

Set-up and Configuration

No set-up/configuration required

4.7 Log Number: 01576597**Summary of Call**

XML no of chars does not match TMS no of chars

Detail of Fix

The limit for the maximum line size when extracting XML data has been extended.

Set-up and Configuration

Up to 2000 characters can be stored.

No set-up/configuration required

4.8 Log Number: 00195537**Summary of Call**

Error On New Order Form When Moving To Tab Add Detail

Detail of Fix

The 'Original From' and 'Final To' location fields in the 'ORDERS' and 'ORDERS_WIDE' screens will have the same list of values as the 'Collect From' and 'Deliver To' location fields when the system parameter 'GEO_SUBURB' is 'Y' or 'N'.

Set-up and Configuration

No set-up/configuration required

4.9 Log Number: 01566301

Summary of Call	Debrief issue
Detail of Fix	The system parameter TRM_PREVENT_ALL_DEBRIEF will be effective when the user pages or scrolls up or down.
Set-up and Configuration	When this parameter is Y, the actual dates and times for the trip stops will not be defaulted. No set-up/configuration required

4.10 Log Number: 00198413

Summary of Call	Interface errors screen - warning messages The new EDI parameter 'NO_UPDATE_DEPOT_ADDR' when set to 'Y' will be used to prevent the user being warned that the RDC location will not be updated when not all the address data has been provided.
Detail of Fix	Further validation error messaging has been included for the address data when new locations are being created or addresses are being updated. Multiple trailer types and contacts can be added to the locations. The trailer types must exist and the fill factor must be numeric.
Set-up and Configuration	

New Parameters			
Parameter Name	Config Level	Setting Value	Result
NO_UPDATE_DEPOT_ADDR	EDI	Y	The location address for a RDC cannot be updated via inbound EDI ordering.
NO_UPDATE_DEPOT_ADDR	EDI	N	The location address for a RDC can be updated via inbound EDI ordering.

4.11 Log Number: 01598292

Summary of Call	Updates to loading and delivery documents
Detail of Fix	Fixes to customer specific delivery and loading reports
Set-up and Configuration	No set-up/configuration required

4.12 Log Number: 01605971

Summary of Call	Vehicle types not sent to PTV
Detail of Fix	The group for the vehicle type of the order will be sent to Logix/PTV as decoded by 'LOGIC_VEH_GROUPS'.
Set-up and Configuration	No set-up/configuration required

4.13 Log Number: 01618702

Summary of Call	C-TMS Locations export data
Detail of Fix	The 'Location Export' file does not include a double quotation mark that would cause the data to be displayed in the wrong column.
Set-up and Configuration	No set-up/configuration required

4.14 Log Number: 01619171

Summary of Call	Oracle Error from calc distance and time The calculation for the distance and time for trip stops has been amended. Cross-docked orders from a collection location will retain the fixed stop times when they are set and non-fixed trip stops will perform the calculation.
Detail of Fix	If the collection trip contains a fully scheduled order that has been planned for cross-docking, new orders can be planned on that trip. Auto-planned orders will continue to use the time windows for their trip stops when advised.
Set-up and Configuration	

New Parameters			
Parameter Name	Config Level	Setting Value	Result
EPOD_JOB_RETAIN_TIMES	COST_CENTRE	Y	Only updates the actual stop times when they are not set.
EPOD_JOB_RETAIN_TIMES	COST_CENTRE	N	Updates the actual stop times.
LOTS_SEND_WHEN_VEHICLE_SCANNED	COST_CENTRE	VLI,VLD,VUI	The listed LOTS messages types will be held until a vehicle scan has

New Parameters			
			been received for the order.
LOTS_SEND_WHEN_VEHICLE_SCANNED	COST_CENTRE	N	All LOTS message types will be sent without delay.

4.15 Log Number: 01633444

Summary of Call	Fixed route generation
Detail of Fix	The customer scheduling engine will create unique trip stops even if overlapping dates exist for the fixed route.
Set-up and Configuration	No set-up/configuration required

4.16 Log Number: 01630455

Summary of Call	<p>Message processing</p> <p>The format of the email addresses of the recipients of the messages will be validated before attempting to send an email.</p>
Detail of Fix	<p>The email address must contain an at sign and a full stop.</p> <p>The email address cannot contain a semi-colon, a forward slash or a space otherwise the sending of the email will fail.</p>
Set-up and Configuration	No set-up/configuration required

4.17 Log Number: 01634680

Summary of Call	INC38355978 CTMS not generating POD files to Connected View for 3rd party carrier orders
Detail of Fix	The POD flag for the order will be set to Y for a carrier POD message.
Set-up and Configuration	When the POD flag for the order is set to Y, a POD messages for Connected View will be generated. No set-up/configuration required

4.18 Log Number: 01727033

Summary of Call	Genersearch_outbound EDI The 'LOTS' files will be copied for the customers who require them.
Detail of Fix	They will not be generated and sent until a valid EDI process exists with the correct FTP details and a connection that can be opened, and a local directory structure that exists to store and process the files.
Set-up and Configuration	No set-up/configuration required

4.19 Log Number: 01638058

Summary of Call	Stops not being created though successfully processed The delivery orders can be planned onto the same route for the schedule as part of the initial plan in Paragon or as part of a re-spin process.
Detail of Fix	The delivery orders will not be trunked for delivery to another specific depot for the delivery location if they are already available at the planning depot. The delivery orders will be trunked from delivery from another cross-docked depot.
Set-up and Configuration	The specific depot for the delivery location is stored as a delivery slot. No set-up/configuration required

4.20 Log Number: 01720493

Summary of Call	Trunk trips The trunk trips will be created specifically for the orders as they are processed based on the next loading and unloading activities at the RDC locations that have been planned for the delivery of the order.
Detail of Fix	The number of trunk trips that are created based on the slots for the RDC locations and that are then deleted because they are not used in the final plan for the delivery of the orders will then be reduced.
Set-up and Configuration	No set-up/configuration required

4.21 Log Number: 01729869

Summary of Call	Amendments identified during UAT
Detail of Fix	Amendments on Carrier Rules following UAT
Set-up and Configuration	No set-up/configuration required

4.22 Log Number: 01581859

Summary of Call	CTL issues
Detail of Fix	Fixed and sent to test. To reproduce it you need a weight of 1 and a qty of say 3. Or something that produces a recurring fraction. The solution is to perform the division within the .net code as oracledataaccess seems unable to cope with it.
Set-up and Configuration	No set-up/configuration required

4.23 Log Number: 01582929

Summary of Call	Customer details for CANCELLATION orders
Detail of Fix	Reduce the validation for Invalid Orders
Set-up and Configuration	No set-up/configuration required

4.24 Log Number: 01558743

Summary of Call	Latency in using Trip (Waterfall) for allocation resource
Detail of Fix	The 'Trip Waterfall' screen displays the trips and resources for allocation for the specified parameters.

The queries for the trip blocks and the tab blocks will be made when they are required.

The 5 trip blocks by trip status in the 'ALL' tab page will be refreshed when the screen is opened for the default schedule, when the schedule or other filters are changed, and when the tab page is re-opened from another tab page or a called screen.

The 5 tab pages for the specified trip status will be refreshed when the tab page is opened and when the tab page is re-opened from a called screen.

The 'Alloc Resource' button and menu option will call the 'Allocate Resources' screen (TRIP_RES) when a crew or a driver is not required for the resource allocation.

These resources for the driver, tractor and trailer for the carrier of the trip will be displayed for selection.
No set-up/configuration required

Set-up and Configuration

6 ADDITIONAL CHANGES

6.1 WCS

There is no WCS change required.

6.2 EPOD/T2A

An ePOD/T2A change is required for the following logs:

- Log 01596335 (T2A v4.0.0.1)

6.3 MCS

There is no MCS change required.

6.4 PORTAL/TTM

There is no Portal change required.

6.5 EDI

There is no EDI changes required.

6.6 Customer Services

A Customer Services change is required for the following logs:

- Log 01581859 (v1.00.17)
