1 SUMMARY INTRODUCTION

1.1 INTRODUCTION

The main aim of this document is to provide *CALIDUS* TMS users with the level of detail required to accurately test all software included in the patch. The document also contains set-up and configuration details to enable the user to configure the system correctly for the new functionality to work.

1.1.1 GLOSSARY OF TERMS

Term	Meaning
C-TMS	Transport Management System
C-WMS	Warehouse Management System
CR	Change Request
C-WCS	Warehouse Control System
C-ePOD	Electronic Proof of Delivery
C-MCS	Mobile Control System
C-TTM	Track and Trace Management
EDI	Electronic Data Interchange
TID	Testing Issue Development, or Log

1.2 TESTING PROCESS

1.2.1 TIDs AND RESOLUTION

If there are any areas of the functionality that are not acceptable or do not meet the requirement specified in the Change Request then these should be expressed by raising a TID.

1.2.2 FINAL 'END TO END' TESTING

Prior to release to a production database, a full 'End to End' test is required on the test system by all sites using the database. Once this is signed off, a release date can be arranged.

1.2.3 AUTHORISATION

Authorisation from nominated release personnel only will be required when requesting a release to a production environment

2 CHANGE REQUESTS

2.1 Log Number: 00576827

Summary of Call	Install line created for wheel
Detail of Fix	Changes for 531320. Added decodes for product category for TYRE and NON-TYRE, only when quantity is greater than zero then the item is created.
Set-up and Configuration	No set-up/configuration required

2.2 Log Number: 03171309

Summary of Call	Order email address export
Detail of Fix	New ORS report called EX_ORDMAIL has been created which includes order level data and item level data. Order level data includes contact information like email which has been requested to add.
Set-up and Configuration	No set-up/configuration required

2.3 Log Number: 00528798

Summary of Call	Tracking Report
Detail of Fix	Two new values will be added to the Configurable Search Criteria in both the orders and orders wide screens.
Set-up and Configuration	ORDER_ITEM extract is modified to have second level called ORD_ITEM_CONTENT. No set-up/configuration required

2.4 Log Number: 00543347

Summary of Call	Order interface spec
Detail of Fix	New software developed to process order imports for customer
Set-up and Configuration	

New Parameters			
Parameter Name	Config Level	Setting Value	Result
ALLOW_MULTIPLE_ADD_REFS	COST CENTRE	Y	Allow multiple additional references for an order

2.5 Log Number: 02756193

Summary of Call	Carbon Reporting
Detail of Fix	Provide output from all-CTMS databases to populate carbon reporting
Set-up and Configuration	No set-up/configuration required

2.6 Log Number: 02428249

Summary of Call	Customer-Specific Tracking File
Detail of Fix	A new EDI process has been introduced, featuring a parameter called 'SEND_EVENT_TRACKING'. When this parameter is set to 'Y', it incorporates the 'EVENT_TRACKING' section. Additionally, five new tags have been introduced in the 'MILESTONE' section: SEAL_NUMBER, FROM_LOC_LAT, FROM_LOC_LONG, TO_LOC_LAT, and TO_LOC_LONG. These tags will only be included if the 'SEND_EVENT_TRACKING' parameter is active and their values are not NULL.
Set-up and Configuration	A revised format of the TripOrder.xsd has been developed to align with these requirements, ensuring that the five new tags are updated under MILESTONE section accordingly. No set-up/configuration required

2.7 Log Number: 00605864

Summary of Call	Order Sub refs not in customer tracking file
Detail of Fix	Add SEND_SUB_REFERENCES EDI parameter to control the sending of sub references . Existing system parameter USE_XML_ORDER_SUB_REFS also needs to be made active for the cost centre
Set-up and Configuration	No set-up/configuration required

2.8 Log Number: 00606083

Summary of Call	Amend the trigger for tracking messages
-----------------	---

Detail of Fix
Set-up and Configuration

Trigger corrected to use actual quantity.
No set-up/configuration required

2.9 Log Number: 00606761

Summary of Call
Detail of Fix
Set-up and Configuration

Ref missing from order sub references
Software release to correct missing customer references
No set-up/configuration required

2.10 Log Number: 00613005

Summary of Call
Detail of Fix
Set-up and Configuration

Changes to customer Order Interface
Amend customer order import to obtain pallet data from new tags
No set-up/configuration required

2.11 Log Number: 00623186

Summary of Call
Detail of Fix
Set-up and Configuration

Customer import reprocessing missing cust ref
Software release to create cust references when an order import is reprocessed
No set-up/configuration required

2.12 Log Number: 00624902

Summary of Call
Detail of Fix
Set-up and Configuration

Cust order items incorrect quantity
Updated item quantities to always show as 1
No set-up/configuration required

2.13 Log Number: 00623640

Summary of Call
Detail of Fix
Set-up and Configuration

Changes to customer tracking milestones
Additional milestones added to show arriving at and departing from consolidation facility
No set-up/configuration required

2.14 Log Number: 00625942

Summary of Call
Detail of Fix
Set-up and Configuration

Customer interface item identifier - remove underscore
Remove underscore from item id and set the item current location to GRID
No set-up/configuration required

2.15 Log Number: 00628135

Summary of Call
Detail of Fix
Set-up and Configuration

Change cust item identifier
Update the item id to use Pallet ID
No set-up/configuration required

2.16 Log Number: 00630454

Summary of Call
Detail of Fix
Set-up and Configuration

Store customer pallet ID in uppercase
Change DP_TES EDI_IN in store pallet ID's in upper case
No set-up/configuration required

2.17 Log Number: 00631428

Summary of Call
Detail of Fix
Set-up and Configuration

Cust order import duplicate items
Changes to accommodate multiple pallets/orders
No set-up/configuration required

2.18 Log Number: 00632041

Summary of Call
Detail of Fix

Order interface for Aggregated order number
Changes made to customer order interface to store new aggregated order number

Set-up and Configuration No set-up/configuration required

2.19 Log Number: 00645781

Summary of Call	Order Import Failure
Detail of Fix	Correct issue with multiple pallets/orders
Set-up and Configuration	No set-up/configuration required

2.20 Log Number: 00647837

Summary of Call	Customer order Refs not populated
Detail of Fix	Update customer order references as required, add reason code to all items
Set-up and Configuration	No set-up/configuration required

3 SUPPORT INCIDENTS

3.1 Log Number: 02730386

Summary of Call

Order progress

Introduced a cost centre configurable parameter to resolve the issue.

Detail of Fix

The default value of parameter is 'N'. When parameter is set to 'Y' for the cost centre then PLANNED status is set to Webfleet.

Set-up and Configuration

New Parameters			
Parameter Name	Config Level	Setting Value	Result
DON'T_SEND_PLANNED_TO_WEBFLEET	COST_CENTRE	Y/N	When the parameter is set control record is not sent for PLANNED status

3.2 Log Number: 03549900

Summary of Call

Order audit

The DU category of the order will be audited when the order is created or updated.

Detail of Fix

The DU category will be 'PALLET' when the order contains a DU type of that category.

The DU category will be 'PARCEL' when the order does not contain a DU type of the 'PALLET' category.

The DU category will be NULL when the order does not contain a DU type.

Set-up and Configuration

No set-up/configuration required

3.3 Log Number: 00600347

Summary of Call

Planning Trip Updates

Detail of Fix

Exit loop if trailer type unpopulated

Set-up and Configuration

No set-up/configuration required

3.4 Log Number: 00624191

Summary of Call

Rebook order data missing

Detail of Fix

Data script created to populate missing reference data

Set-up and Configuration

No set-up/configuration required

3.5 Log Number: 00632457

Summary of Call

Inactive drivers and vehicles

The 'active' flag for the drivers in EPOD will refer to the 'inactive' flag for the driver or the link between the driver and the carrier.

Detail of Fix

An inactive driver will not be active for EPOD independently of an active link between the driver and the carrier.

An inactive link between the driver and the carrier will make the driver inactive for EPOD if the driver itself is active.

Set-up and Configuration

No set-up/configuration required

3.6 Log Number: 00622372

Summary of Call

Locking for orders in CTL

Detail of Fix

The users in the Call Logging screen in CTL will be advised when a lock is detected for an order when it is being updated.

Set-up and Configuration

No set-up/configuration required

3.7 Log Number: 02767706

Summary of Call

Users are advising they are receiving the please start order message

Detail of Fix

Modified the trigger to send the earlier stop_id to the program.

Set-up and Configuration

No set-up/configuration required

3.8 Log Number: 03010528

Summary of Call

Planning screen new configuration

Detail of Fix

Amended logic to have future historic dates in From schedule as requested and match the From schedule to Trip tree schedule irrespective of cost centre set, when the parameters are null.

Set-up and Configuration

No set-up/configuration required

4 TID CHANGES

4.1 Log Number: 00582177

Summary of Call	Customer location ID not updated in Import
Detail of Fix	Added customer update to import
Set-up and Configuration	No set-up/configuration required

4.2 Log Number: 00581533

Summary of Call	Auth ref not populating on POD sheet
Detail of Fix	Added Authority code to EPL_ACCOUNT tag for Service jobs
Set-up and Configuration	No set-up/configuration required

4.3 Log Number: 00583217

Summary of Call	Epod Error - product x ref
Detail of Fix	Prevent empty product codes from being created
Set-up and Configuration	No set-up/configuration required

4.4 Log Number: 00581531

Summary of Call	Multiple contacts displaying. Should be driver only
Detail of Fix	Do not update text on location contacts
Set-up and Configuration	No set-up/configuration required

4.5 Log Number: 00585174

Summary of Call	First stop departure for AM/Night runs
Detail of Fix	Correct start times on SU stop for AM runs
Set-up and Configuration	No set-up/configuration required

4.6 Log Number: 00585210

Summary of Call	Fixed Routes maintenance screen - search criteria resets
Detail of Fix	Check box values and route position maintained after editing a route
Set-up and Configuration	No set-up/configuration required

4.7 Log Number: 00590646

Summary of Call	Portal reporting drivers arrived when they haven't started the job
Detail of Fix	Add EPL_SEQUENCE to EPOD_JOB
Set-up and Configuration	No set-up/configuration required

4.8 Log Number: 00588541

Summary of Call	No DEL message sent from TMS for OMS 315
Detail of Fix	Added check before insert to see if records already exist and update instead of insert if found.
Set-up and Configuration	Note that case 591914 is linked to case 588541. No set-up/configuration required

4.9 Log Number: 00589819

Summary of Call	Special Instructions Causing Jobs to Fail
Detail of Fix	Increased the size limit to allow for large special instructions to be entered.
Set-up and Configuration	No set-up/configuration required

4.10 Log Number: 00591914

Summary of Call	Some Orders not updating Portal with Completion times
Detail of Fix	A 'DEL' message for 'LOTS' will be sent when a vehicle is inspected by 'EPOD' at the same time that a 'DEL' message is sent via the 'API' to 'Elucid'.
Set-up and Configuration	Note that case 591914 is linked to case 588541. No set-up/configuration required

4.11 Log Number: 00585234

Summary of Call	Waterfall screen - Alloc Resources button and menu option call different screens
Detail of Fix	Made change to Alloc resource (right click menu) to call same resource allocation form when RES_AVAILABILITY_ALLOC parameter is configured for the cost_centre of the trip.
Set-up and Configuration	No set-up/configuration required

4.12 Log Number: 00585205

Summary of Call	Scheduling engine - doesn't set the trailer type against the trip
Detail of Fix	Updated trailer type from route
Set-up and Configuration	No set-up/configuration required

4.13 Log Number: 00589803

Summary of Call	Mismatch for tyre qty when qty is updated/changed on the epod device
Detail of Fix	Updated items from actual quantity
Set-up and Configuration	No set-up/configuration required

4.14 Log Number: 00591939

Summary of Call	OMS 645 sent additional line to Elucid
Detail of Fix	Prevent items being added for installations without a position being specified.
Set-up and Configuration	No set-up/configuration required

4.15 Log Number: 00585191

Summary of Call	Location EXT Ref and Paragon ID can't be seen on the Locations Maintenance screen.
Detail of Fix	Added new fields to location screen controlled by system parameter DISPLAY_PARAGON_LOC_ID "N" to not display "Y" to display.
Set-up and Configuration	

New Parameters			
Parameter Name	Config Level	Setting Value	Result
DISPLAY_PARAGON_LOC_ID	SYSTEM	Y/N	Display Paragon ID and EXT Ref in Locations Screen

4.16 Log Number: 00585190

Summary of Call	Location windows can't be viewed or edited in CTMS
Detail of Fix	New tab added to locations screen to maintain location windows
Set-up and Configuration	No set-up/configuration required

4.17 Log Number: 00601998

Summary of Call	Duplicate Service Item Line sent to Elucid
Detail of Fix	Processing of duplicate services removed
Set-up and Configuration	No set-up/configuration required

4.18 Log Number: 00601011

Summary of Call	Special Instructions error message
Detail of Fix	Added error message to allow for up to 4000 characters.
Set-up and Configuration	No set-up/configuration required

4.19 Log Number: 00587165

Summary of Call	Allocating multiple orders into trips
Detail of Fix	Only display planning popup when all delivery locations match
Set-up and Configuration	No set-up/configuration required

4.20 Log Number: 03719814

Summary of Call	Logix Import creating multiple pick ups The current depot of the order will only be assessed and set for the first time when the order is validated when it has been cross-docked without yet setting the current depot.
Detail of Fix	The intention is to account for when the order has been cross-docked on multiple routes to return to a depot.
Set-up and Configuration	No set-up/configuration required

4.21 Log Number: 00585177

Summary of Call	Waterfall Screen: Sortation on new columns
Detail of Fix	Screen updated to correctly sort and display menu
Set-up and Configuration	No set-up/configuration required

4.22 Log Number: 00585187

Summary of Call	Some parameters can't be set from the screen
Detail of Fix	Add missing parameter configuration
Set-up and Configuration	No set-up/configuration required

4.23 Log Number: 00591663

Summary of Call	Order Services doesn't work as expected
Detail of Fix	Corrected tab page changed to query data when finance tab displayed.
Set-up and Configuration	No set-up/configuration required

4.24 Log Number: 00585182

Summary of Call	Resource Maintenance/Drivers/Diary Exceptions - problems entering exception
Detail of Fix	Diary exception screen has been modified to avoid control entering unhandled exception.
Set-up and Configuration	No set-up/configuration required

4.25 Log Number: 00586888

Summary of Call	Resources Screen - Load Rates - can't enter multiple DU type rates
Detail of Fix	Clear out loading rates block when adding new record
Set-up and Configuration	No set-up/configuration required

4.26 Log Number: 00610089

Summary of Call	Missing title to start/end Times columns in Diary exceptions screen
Detail of Fix	Added titles to the Start and End time columns in Diary exceptions screen.
Set-up and Configuration	No set-up/configuration required

4.27 Log Number: 00585186

Summary of Call	Resource Availability Allocation - problems with Save
Detail of Fix	Stop save confirmation message if changes have already been saved
Set-up and Configuration	No set-up/configuration required

4.28 Log Number: 00585183

Summary of Call	BDM screen/Shift Patterns - spurious error
Detail of Fix	Software release to correct error when no depot selected

Set-up and Configuration

No set-up/configuration required

4.29 Log Number: 00585193**Summary of Call**

Flexipod flags not configurable in the system

Detail of Fix

Added checkbox for FlexiPOD in location maintenance (Special tab page) and resource maintenance screen (Carriers tab page) to controls whether the FlexiPOD interface is enabled for sending.

Set-up and Configuration

No set-up/configuration required

4.30 Log Number: 00585198**Summary of Call**

ORS reports not in sync

Detail of Fix

Updated ORS reports to match on both systems added any missing standard reports

Set-up and Configuration

No set-up/configuration required

4.31 Log Number: 00609264**Summary of Call**

Paragon Import

Detail of Fix

Software change to resolve performance issues

Set-up and Configuration

No set-up/configuration required

4.32 Log Number: 00611084**Summary of Call**

No can message sent for Invalid orders

Detail of Fix

Prevent order going to Invalid status when all items are deleted from the order

Set-up and Configuration

No set-up/configuration required

4.33 Log Number: 00614444**Summary of Call**

To release Update script for Geo_location table for new column UNL_LOCATION_CODE

Detail of Fix

Disabled all the triggers for GEO_LOCATION and enabled them again after updating the new column UNL_LOCATION_CODE.

Set-up and Configuration

No set-up/configuration required

4.34 Log Number: 00614441**Summary of Call**

Duplication on invoice for OMS 2063

Detail of Fix

Only update inspections without faults setting despatched and delivered to ordered quantity.

Set-up and Configuration

No set-up/configuration required

4.35 Log Number: 00614901**Summary of Call**

Location References don't display names correctly

Detail of Fix

Corrected the width of field and adjusted the layout of reference tab in Location screen to display the reference code and name configured against them.

Set-up and Configuration

No set-up/configuration required

4.36 Log Number: 00617056**Summary of Call**

Del times show

Detail of Fix

Create control records always created for DELETED trips

Set-up and Configuration

No set-up/configuration required

4.37 Log Number: 00618294**Summary of Call**

FIA Report showing inspections when they have been completed

Detail of Fix

Fix to view to link to res_vehicle_cust_loc correctly

Set-up and Configuration

No set-up/configuration required

4.38 Log Number: 00619005

Summary of Call	Incorrect registration sent to Elucid
Detail of Fix	Update vehicle details on a CALLOUT if different for original
Set-up and Configuration	No set-up/configuration required

4.39 Log Number: 00611272

Summary of Call	Additional axle config positions sent to device
Detail of Fix	Display error if trying to change the vehicle config for a vehicle in use.
Set-up and Configuration	No set-up/configuration required

4.40 Log Number: 03755459

Summary of Call	Special character in Interface file output to CV The text for the special instructions and the order comments will run a function to remove a special character like a '?', then remove any control characters, then run a script to remove other characters from the file before it is transferred.
Detail of Fix	
Set-up and Configuration	Alphanumeric characters and spaces, hyphens, underscores and full stops will be retained. No set-up/configuration required

4.41 Log Number: 00596532

Summary of Call	POD emails being sent to customers despite the 'Report' box not checked in Call Logging
Detail of Fix	Added new parameter to control if the customer email address can be used when a job specific address record exists.
Set-up and Configuration	No set-up/configuration required

4.42 Log Number: 00625686

Summary of Call	Incorrect axle config on POD note
Detail of Fix	Customer added to vehicles cursor
Set-up and Configuration	No set-up/configuration required

4.43 Log Number: 00626445

Summary of Call	POD emails being sent when report box unchecked
Detail of Fix	Add NULL value check to cursors
Set-up and Configuration	No set-up/configuration required

4.44 Log Number: 00627741

Summary of Call	Job Cancellation/Re-instate issue
Detail of Fix	Allow orders to be removed from an EN-ROUTE trip if they have been collected but not delivered
Set-up and Configuration	No set-up/configuration required

4.45 Log Number: 00585176

Summary of Call	Trips screen: Show on map
Detail of Fix	Amended package to accommodate for dummy 499/500 stop numbers
Set-up and Configuration	No set-up/configuration required

4.46 Log Number: 00632231

Summary of Call	Email sent to customer in error
Detail of Fix	A contact for the location for the order will not be sent to EPOD when none of the contacts for the order itself are not enabled for reporting and tracking and the contact for the location itself is not enabled for reporting and tracking.
Set-up and Configuration	No set-up/configuration required

4.47 Log Number: 00641104

Summary of Call	Email sent to customer in error
Detail of Fix	Add location contact for the customer to message to epod.
Set-up and Configuration	Update the send text box when updating location contacts No set-up/configuration required

4.48 Log Number: 00642165

Summary of Call	Incorrect Time Displayed in Portal
Detail of Fix	Update first stop correctly when no collection performed
Set-up and Configuration	No set-up/configuration required

4.49 Log Number: 00638199

Summary of Call	Tracking emails not being sent in some scenarios
Detail of Fix	Add new parameter LOTS_ALWAYS_SEND_HDR_CONTACTS set to Y will ensure that both location and order contacts with the tracking box ticked are sent to LOTS in all messages
Set-up and Configuration	

New Parameters			
Parameter Name	Config Level	Setting Value	Result
LOTS_ALWAYS_SEND_HDR_CONTACTS	Cost Centre	Y/N	Always send location contacts with order contacts to lots

4.50 Log Number: 00646471

Summary of Call	Locking Error Message
Detail of Fix	Error message updated
Set-up and Configuration	No set-up/configuration required

4.51 Log Number: 00644267

Summary of Call	POD email not being sent correctly
Detail of Fix	Additional email addresses added to both epod and portal messages
Set-up and Configuration	No set-up/configuration required

5 PRODUCT DEVELOPMENT

5.1 Log Number: 00586071

Summary of Call

The ISO-3166-1 Alpha-3 code is required for the countries

Detail of Fix

Add new in parameter to the HERE maps call for get_lat_long and get_lat_long_fails, in addition ensure that all http requests are ended regardless of success or failure.

Set-up and Configuration

No set-up/configuration required

5.2 Log Number: 00600899

Summary of Call

Country Code not being found in distance and time calculation

Detail of Fix

The new 3 digit country code was not found in the distance and time procedure of the DP_NOKIA_LOC_PLAT package, causing a failure to find the correct values

Set-up and Configuration

No set-up/configuration required

5.3 Log Number: 00601913

Summary of Call

Not All overseas addresses return a result from HERE Maps

Detail of Fix

Corrected URL for overseas addresses to include an '&' where required

Set-up and Configuration

No set-up/configuration required

5.4 Log Number: 00629930

Summary of Call

Here Maps returning incorrect time / distance

Detail of Fix

Changes made to distance and time calculations when multiple legs returned from NOKIA

Set-up and Configuration

No set-up/configuration required

5.5 Log Number: 00565471

Summary of Call

Errors in ADM_LOG on live system

Only stores 50 characters for the customer's name from the CUST_NAME order sub-reference.

Detail of Fix

An API message for the new trailer type for a trip stop will be generated. Auditing messages have been removed from the interface for Webfleet.

Set-up and Configuration

No set-up/configuration required

5.6 Log Number: 00571999

Summary of Call

ORS inconsistencies

Detail of Fix

Script created to correct issues

Set-up and Configuration

No set-up/configuration required

5.7 Log Number: 00608993

Summary of Call

Layout issues in ORDERS_WIDE screen

Detail of Fix

Cosmetic Layout issues corrected

Set-up and Configuration

No set-up/configuration required
