1 SUMMARY INTRODUCTION

1.1 INTRODUCTION

The main aim of this document is to provide *CALIDUS* TMS users with the level of detail required to accurately test all software included in the patch. The document also contains set-up and configuration details to enable the user to configure the system correctly for the new functionality to work.

1.1.1 GLOSSARY OF TERMS

Term	Meaning
C-TMS	Transport Management System
C-WMS	Warehouse Management System
CR	Change Request
C-WCS	Warehouse Control System
C-ePOD	Electronic Proof of Delivery
C-MCS	Mobile Control System
C-TTM	Track and Trace Management
EDI	Electronic Data Interchange
TID	Testing Issue Development, or Log

1.2 TESTING PROCESS

1.2.1 TIDs AND RESOLUTION

If there are any areas of the functionality that are not acceptable or do not meet the requirement specified in the Change Request then these should be expressed by raising a TID.

1.2.2 FINAL 'END TO END' TESTING

Prior to release to a production database, a full 'End to End' test is required on the test system by all sites using the database. Once this is signed off, a release date can be arranged.

1.2.3 AUTHORISATION

Authorisation from nominated release personnel only will be required when requesting a release to a production environment

2 CHANGE REQUESTS

2.1 Log Number: 528318

Summary of Call Implement an interface for the new Courier system
Detail of Fix New customer-specific courier development.
Set-up and Configuration No set-up/configuration required

2.2 Log Number: 645189

Summary of Call Updating radial routing by zone
The radial routing code and region for a location will be updated as the location is added to, or deleted from, or made active or inactive, or included in, or excluded from, a zone when the location exists in the range of type 'LOCATION_ID'. The radial route code will be obtained from the stop for the zone which contains the location. This functionality will be active when the system parameter called 'GEO_LOC_RADIAL_ROUTES' is set to 'Y'.
Detail of Fix
Set-up and Configuration No set-up/configuration required

2.3 Log Number: 653514

Summary of Call Carbon reporting
Detail of Fix Add new columns to extracts, changed the source of some of the existing columns
Set-up and Configuration No set-up/configuration required

2.4 Log Number: 672929

Summary of Call Store OLPN number on order item contents
Detail of Fix The OLPN number which is received as the 'caseID' will be stored as the description of the item's contents instead of the consolidated order reference.
Set-up and Configuration No set-up/configuration required

2.5 Log Number: 616866

Summary of Call SCR-CTMS-03557646-06 Attach Exception Reports to the Waterfall screen
"The 'Trip Waterfall' screen includes a 'Run Report' option to produce a report. This development is linked to 03557646-05 and 03557646-07.
Detail of Fix 03557646-05: The user will be able to select multiple records but only to update the status of the trips.
03557646-06: The user will be able to open the 'Export' screen for a trip.
03557646-07: The user will be able to open the 'Planning' screen for a trip."
Set-up and Configuration No set-up/configuration required

2.6 Log Number: 616853

Summary of Call SCR-CTMS-03557646-05: Multi-select and set ACCEPTED status from Waterfall screen.
"The users will be able to select multiple rows to update the status of the trips in the same block. This development is linked to 03557646-06 and 03557646-07.
Detail of Fix 03557646-05: The user will be able to select multiple records but only to update the status of the trips.
03557646-06: The user will be able to open the 'Export' screen for a trip.
03557646-07: The user will be able to open the 'Planning' screen for a trip."
Set-up and Configuration No set-up/configuration required

2.7 Log Number: 619888

Summary of Call SCR-CTMS-03557646-08 Add route end time to Route Header screen
Detail of Fix Added a field Route End Time to the screen Route Detail.
Set-up and Configuration

2.8 Log Number: 619949

Summary of Call SCR-CTMS-03557646-09 Add route end time to ORS report on routes
Detail of Fix Includes the 'Route End' time to the 'FIX_ROUTE' ORS report.
Set-up and Configuration No set-up/configuration required

2.9 Log Number: 616907

Summary of Call
Detail of Fix
Set-up and Configuration

SCR-CTMS-03557646-03 Specific data reports, summing Tyres only
A new extract called RUN_FROM_WATERFALL is being added to the package.
No set-up/configuration required

2.10 Log Number: 645362

Summary of Call
Detail of Fix
Set-up and Configuration

SCR-CTMS-03557646-25-Customer Onboarding - Do not overwrite load/unload rates
A new system parameter "DO_NOT_UPDATE_LOAD_RATES" can be set to Y to retain existing values for loading and unloading rates for a location in the customer import procedure.
No set-up/configuration required

2.11 Log Number: 616827

Summary of Call
Detail of Fix
Set-up and Configuration

SCR-CTMS-03557646-04 Transfer Order - Trip Lookup to show route
Added new fields to the lookup of transfer order, to aid finding correct trip.

2.12 Log Number: 645350

Summary of Call
Detail of Fix
Set-up and Configuration

SCR-CTMS-03557646-10 Planning: Support changing stops against a trip created from schedule engine.
Scheduling Engine changes for both 645350 and 619205.
No set-up/configuration required

2.13 Log Number: 620870

Summary of Call
Detail of Fix
Set-up and Configuration

SCR-CTMS-669852-08-PSD PDF Label Format
New PSD pdf report
No set-up/configuration required

2.14 Log Number: 620899

Summary of Call
Detail of Fix
Set-up and Configuration

SCR-CTMS-669852-67-Maintain Original Delivery Type against an order.
Record the Original Delivery Type of the orders
No set-up/configuration required

2.15 Log Number: 620889

Summary of Call
Detail of Fix
Set-up and Configuration

SCR-CTMS-669852-56-Search orders by postcode or partial postal strings
Added filtering by post code to the orders screen
No set-up/configuration required

2.16 Log Number: 620890

Summary of Call
Detail of Fix
Set-up and Configuration

SCR-CTMS-669852-57-Prompt for and store reason for changing order delivery dates and times.
"Force entry of a Non Conformance record if dates have
changed and the NON_CON_DEL_DATES system parameter is set to Y."

2.17 Log Number: 620883

Summary of Call
Detail of Fix
Set-up and Configuration

SCR-CTMS-669852-48-Send email/SMS at a defined time the day before
New development for Day Before email messages
No set-up/configuration required

2.18 Log Number: 620919

Summary of Call	SCR-PORTAL-669852-62-Display additional order references
Detail of Fix	Remove certain order references from the xml export Ord messages
Set-up and Configuration	No set-up/configuration required

2.19 Log Number: 620873

Summary of Call	SCR-CTMS-669852-11-Order import processes to only match locations based on Name/Address 1/Postcode.
Detail of Fix	A new system parameter 'LIMIT_ADDRESS_MATCH' is created, this parameter will then be used in all order imports both CSV and XML to only use the following fields when matching an address: Address Lines 1-2 Postcode The address line 1, address line 2 and the postcode will be used to select an existing location to use for the order when the system parameter 'IMP_FULL_LOC_ADDR_MATCH' is not set to 'Y'.
Set-up and Configuration	No set-up/configuration required

2.20 Log Number: 616806

Summary of Call	SCR-CTMS-03557646-19 Allow lookup of route numbers in Planning screen
Detail of Fix	A new system parameter was created called 'LOOKUP_FOR_ROUTE_CODES'. When set to 'Y', it will cause a new route look-up button to appear in the PLANNING screen (beside the 'Route Code' field).
Set-up and Configuration	No set-up/configuration required

2.21 Log Number: 645359

Summary of Call	SCR-CTMS-03557646-11/22-Depot Sweep
Detail of Fix	Added depot_sweep, find_route etc.
Set-up and Configuration	No set-up/configuration required

2.22 Log Number: 620914

Summary of Call	SCR-PORTAL-669852-14-Allow update of client orders entered through Portal.
Detail of Fix	"Includes a function to validate the order in Portal. Linked to 669852-100 for the ZPL labels."
Set-up and Configuration	No set-up/configuration required

2.23 Log Number: 645363

Summary of Call	SCR-CTMS-03557646-26-Rebooking modifications
Detail of Fix	New rebooking code created
Set-up and Configuration	No set-up/configuration required

2.24 Log Number: 645360

Summary of Call	SCR-CTMS-03557646-23-Add Reset Auto-Scheduling and Carry Forward options to Planning screen.
Detail of Fix	Added Reset Auto-Scheduling and Carry Forward menu options to the Planning screen. Access to this new functionality is controlled by the new system parameter 'RESET_MANUAL_SCHEDULE' via a Y/N value setting. When active, the pop-up menu for orders at a stop will now include the new "Carry Forward" menu option. The "Reset Auto Scheduling" and "Carry Forward" options will be added to the popup menu on the order well. The "Move to Schedule" option in the popup menu of the order well will now in addition to the schedule movement, change the manual schedule flag on the selected orders to allow the orders to be replanned automatically. Note: when carrying forward, a pop-up of routes is displayed (and selected via clicking the desired row/route). The tester should refer to the data presented in the pop-up to reconcile the effects of the update. Order changes are recorded in the auditing information provided for orders.
Set-up and Configuration	No set-up/configuration required

2.25 Log Number: 645364

Summary of Call	SCR-CTMS-03557646-18-configurable modules (location kept on, orders switched off).
Detail of Fix	New development for the Paragon interface package
Set-up and Configuration	No set-up/configuration required

2.26 Log Number: 620915

Summary of Call
Detail of Fix
Set-up and Configuration

SCR-CTMS-669852-52 - PSD ZPL Label Print
PSD label development.
No set-up/configuration required

2.27 Log Number: 620892

Summary of Call
Detail of Fix
Set-up and Configuration

SCR-CTMS-669852-5A-Offer service levels by day of the week, customer and postal string (zone)
Various changes to determine the next working day.

2.28 Log Number: 664597

Summary of Call
Detail of Fix
Set-up and Configuration

Prod-CTMS-669852-100
Produce PSD labels from Portal passing in items array etc.
No set-up/configuration required

2.29 Log Number: 620871

Summary of Call
Detail of Fix
Set-up and Configuration

SCR-CTMS-669852-10-Modifications to Order Import CSV
Various changes to Order Import to split orders into Collections and Deliveries etc.
No set-up/configuration required

2.30 Log Number: 645357

Summary of Call

Detail of Fix Admin Process updated
Set-up and Configuration No set-up/configuration required

2.130 Log Number: 779582

Summary of Call SCR-CTMS-669852-60-Automatic rebooking
Detail of Fix Updated weight on rebooked order lines
Set-up and Configuration No set-up/configuration required

3 SUPPORT INCIDENTS

3.1 Log Number: 652347

Summary of Call	Ord XML incorrect closing tags
Detail of Fix	Fixed to close the ORD tags correctly
Set-up and Configuration	No set-up/configuration required

3.2 Log Number: 665165

Summary of Call	Amendment to Trigger
Detail of Fix	Remove reference to Fleetcheck
Set-up and Configuration	No set-up/configuration required

3.3 Log Number: 652806

Summary of Call	Ord XML incorrect closing tags
Detail of Fix	Fixed to close the ORD tags correctly.
Set-up and Configuration	No set-up/configuration required

3.4 Log Number: 680323

Summary of Call	Change to capture the OLPN in the Description field
Detail of Fix	Multiple cases for the boxes per order will be stored as the OLPN for the item?s contents.
Set-up and Configuration	No set-up/configuration required

3.5 Log Number: 677708

Summary of Call	Correct error message for LOC_FLEXIPOD
Detail of Fix	"The customer onboarding process displays an incorrect error message for the length of the LOC_FLEXIPOD parameter.
Set-up and Configuration	The error message will be 'provided is too long as maximum length is 1 character'."

3.6 Log Number: 662958

Summary of Call	Reporting of cubic volume from ORS reports
Detail of Fix	The volume of the lines and the items will be calculated for the dimensions of the items when the volume is not provided
Set-up and Configuration	No set-up/configuration required

3.7 Log Number: 693543

Summary of Call	POD Update request
Detail of Fix	Report updated to show units of measure cm and kg
Set-up and Configuration	

3.8 Log Number: 748863

Summary of Call	Vehicles
Detail of Fix	"Added an index to EPOD_SERVICE_ACTIVITY.
Set-up and Configuration	Added update to DP_EXPORT_EVENTS to stop the reprocess of records which receive an invalid response from Elucid "
	No set-up/configuration required

3.9 Log Number: 759798

Summary of Call	Adding SFTP to the various customer flows
Detail of Fix	Added SFTP processing
Set-up and Configuration	No set-up/configuration required

3.10 Log Number: 782274

Summary of Call

Detail of Fix

Set-up and Configuration

User EPOD locking records on TMS

Speeded up the ctms epod webservices package for services processing for cty.

No set-up/configuration required

4 TID CHANGES

4.1 Log Number: 648341

Summary of Call	Prevention of some locks
Detail of Fix	Added a fix to improved the locking for Product updates from CTL
Set-up and Configuration	No set-up/configuration required

4.2 Log Number: 651637

Summary of Call	Missing col messages.
Detail of Fix	Re-added code to trigger
Set-up and Configuration	No set-up/configuration required

4.3 Log Number: 03885049

Summary of Call	Order Processing
Detail of Fix	"The volume and the weight of the order lines will be calculated based on its items when the manifest is confirmed as supplied.
Set-up and Configuration	This calculation will refer to the product type, DU type, commodity code, commodity class, height, width and length which may exist."

4.4 Log Number: 658588

Summary of Call	No DEL message for job 6495
Detail of Fix	Quantities updated by epod message to ensure DEL message created for all call types
Set-up and Configuration	

4.5 Log Number: 680896

Summary of Call	Bookings
Detail of Fix	Added more log messages to attempt to trace locking issues.
Set-up and Configuration	

4.6 Log Number: 685782

Summary of Call	Missing Service Items on device
Detail of Fix	A device fix has been coded in version 4.05.01.29 to reject a service product selected from the search results if that product is a service item (a tyre service item, a vehicle service item or a removal service item). This will prevent that service product being updated to be a physical product and so no longer appearing in the list of service items.
Set-up and Configuration

Summary of Call	Copy of orders does not contain price
Detail of Fix	New values added when copying/rebooking
Set-up and Configuration	

4.53 Log Number: 749051

Summary of Call

Incorrect message for orders via API

"Some of the orders have been rejected because the customers or the locations for the external reference do not exist yet.

Detail of Fix

Some of the orders have been created due to concurrent processing by MuleSoft when MuleSoft should not be sending multiple messages for the orders. The multiple messages were a result of an outage at MuleSoft when no orders were sent to CTMS for a few days. The EDI parameter OMS_UNIQUE_EXT_REF can be set to Y to prevent duplicate orders for the same external reference and the same early collection date. The message for the order API will use the key code to find the control record rather than find the latest order using the external reference when there is concurrent processing."

Set-up and Configuration

No set-up/configuration required

4.54 Log Number: 763453
