7.3 MANUAL.....	30
7.4 .NET.....	30
7.5 Additional Information.....	30

# 1 SUMMARY INTRODUCTION

## 1.1 INTRODUCTION

The main aim of this document is to provide *CALIDUS* WMS users with the level of detail required to accurately test all software included in the patch. The document also contains set-up and configuration details to enable the user to configure the system correctly for the new functionality to work.

### 1.1.1 GLOSSARY OF TERMS

Term	Meaning
C-TMS	Transport Management System
C-WMS	Warehouse Management System
CR	Change Request
C-WCS	Warehouse Control System
C-ePOD	Electronic Proof of Delivery
C-MCS	Mobile Control System
C-TTM	Track and Trace Management
EDI	Electronic Data Interchange
TID	Testing Issue Development, or Log

## **1.2 TESTING PROCESS**

### **1.2.1 TIDs AND RESOLUTION**

If there are any areas of the functionality that are not acceptable or do not meet the requirement specified in the Change Request then these should be expressed by raising a TID.

### **1.2.2 FINAL 'END TO END' TESTING**

Prior to release to a production database, a full 'End to End' test is required on the test system by all sites using the database. Once this is signed off, a release date can be arranged.

### **1.2.3 AUTHORISATION**

Authorisation from nominated release personnel only will be required when requesting a release to a production environment

## 2 CHANGE REQUESTS

### 2.1 OBS Log Number: 349132

<b>Customer Ref:</b>	
<b>Reporter:</b>	Nigel Baldwin
<b>Summary of Call</b>	Changes to Marshalling process
<b>Detail of Fix</b>	Changes to Marshalling process in WMS and RDT.
<b>Set-up and Configuration</b>	Modified PICK_CONT to make STORAGE LOCATION available for selection as a column on the report. No set-up/configuration required

### 2.2 OBS Log Number: 349281

<b>Customer Ref:</b>	
<b>Reporter:</b>	Matthew Tipping
<b>Summary of Call</b>	ASN Development New Customer ASN type.
<b>Detail of Fix</b>	The ASN runs on the pack data, so there is a check in the Despatch Confirmation to ensure that all data is entered before the order can be despatch confirmed.
<b>Set-up and Configuration</b>	Also a check in the WMS/TMS interface so that despatch messages are held until all pack data entered. No set-up/configuration required

### 2.3 OBS Log Number: 349282

<b>Customer Ref:</b>	
<b>Reporter:</b>	Matthew Tipping
<b>Summary of Call</b>	Stock Reconciliation reports EDI message title issue - ensuring that Email title is correct for the message.
<b>Detail of Fix</b>	Calculation of external customer in trans reports - ensuring that the external customer calculation is consistent in both reconciliation and transactional reports.
<b>Set-up and Configuration</b>	No set-up/configuration required

### 2.4 OBS Log Number: 349655

<b>Customer Ref:</b>	
<b>Reporter:</b>	Matthew Tipping
<b>Summary of Call</b>	DESADV - OUTBOUND DESPATCH CONFIRMATION
<b>Detail of Fix</b>	New KER format DESP message.
<b>Set-up and Configuration</b>	No set-up/configuration required

### 2.5 OBS Log Number: 349822

<b>Customer Ref:</b>	
<b>Reporter:</b>	Matthew Tipping
<b>Summary of Call</b>	Customer Delivery Note The database scripts will be used to identify the new despatch note format 'KER'. A new WMS translation will need to be setup for the company code for translation 'MORAN_DNOTE' and code 'DNOTE_TEXT' with a description to store the text for the registered company and address. A new program image will need to be setup for the logo to display on the despatch note report for program 'WHR1900_KER', field name 'KER_LOGO', image name 'KER_LOGO.jpg' and a start date. The 'KER_LOGO.jpg' file will need to be placed in the specified directory.
<b>Detail of Fix</b>	This directory will be specified in the general settings for 'LogoPathFile'. Owner messages 'DNT1' and 'ORDE' will need to be setup to display the despatch note text and the order text in the despatch note footing and header sections.
<b>Set-up and Configuration</b>	No set-up/configuration required

### 2.6 OBS Log Number: 349887

<b>Customer Ref:</b>	
<b>Reporter:</b>	Nigel Baldwin

<b>Summary of Call</b>	Outbound despatch label A new ?KER? label format has been added to the packing screen. This will produce labels for all pack references on the order when the Print button is clicked. The labels will also include any stock from other orders which used the same pack reference.
<b>Detail of Fix</b>	Setup Notes: In the Pack Parameter Maintenance screen (WHS1944) the ?Default Pack Type; must be set to ?By Pallet? and the ?Packing List Format? must be set to ?KER?. The label will be sent to the print queue entered in the ?Label Printer? field in the packing screen (WHS1945).
<b>Set-up and Configuration</b>	No set-up/configuration required

## 2.7 OBS Log Number: 349960

<b>Customer Ref:</b>	
<b>Reporter:</b>	Paul Roscoe
<b>Summary of Call</b>	INVRPT - DUMP File A new EDIFACT file in format INVRPT is available to configure to report negative stock adjustments for dumped stock. A new EDI process will need to be setup with format KER for outbound files to be generated for the warehouse and owner. The standard package 'dp_conf_edi_out.produce_dyn_edi_files' for stock adjustments will be used for the command.
<b>Detail of Fix</b>	An outbound EDI message can be configured for structure ADJ_FCT and trigger point IAJD_CRE. The format can be declared as fixed length although an EDIFACT file is variable.  The file can be consolidated to include all recent transactions in one file but it is expected that separate files will be created for each transaction and the consolidate flag can be set to 'No' accordingly.  The EDI process can be setup to send an email to one or more recipients with the generated file(s) attached. It is expected that the files will be placed in an outbound directory for external transfer.
<b>Set-up and Configuration</b>	No set-up/configuration required

## 2.8 OBS Log Number: 350366

<b>Customer Ref:</b>	
<b>Reporter:</b>	Nigel Baldwin
<b>Summary of Call</b>	Drop replens as soon as below quantity New functionality based on the new Topup Replen after Allocation option on the Sales Order tab of the Owner Maintenance form. If the flag is set to Yes, after allocation an automatic replen of the pickfaces will be done. The replen mimics the actions of the Bulk to Pick Replen screen as a case level replen to Pick for Home type orders, and runs for all stock codes allocated on that allocation pass, for all locations.
<b>Detail of Fix</b>	
<b>Set-up and Configuration</b>	No set-up/configuration required

## 2.9 OBS Log Number: 350398

<b>Customer Ref:</b>	
<b>Reporter:</b>	Dave Potter
<b>Summary of Call</b>	Release log for 349282
<b>Detail of Fix</b>	EDI stock mismatch report (daily / weekly).
<b>Set-up and Configuration</b>	No set-up/configuration required

## 2.10 OBS Log Number: 350648

<b>Customer Ref:</b>	
<b>Reporter:</b>	Dave Potter
<b>Summary of Call</b>	Second release log for 349282 GRN level subtotal added to stock mismatch rpt
<b>Detail of Fix</b>	Added 2 new EDI reports - Finished Goods Stock Reconciliation Report and Finished Goods Stock Transaction Report.
<b>Set-up and Configuration</b>	No set-up/configuration required

## 2.11 OBS Log Number: 350697

<b>Customer Ref:</b>	
<b>Reporter:</b>	Simon Eland
<b>Summary of Call</b>	GRN Conf by RF
<b>Detail of Fix</b>	Check if WGEF exists via primary key
<b>Set-up and Configuration</b>	No set-up/configuration required

**2.12 OBS Log Number: 350852**

Customer Ref:  
 Reporter: Tony Walker  
 Summary of Call Add customer class to customer wizard  
 Detail of Fix Customer class added to the customer wizard screen.  
 Set-up and Configuration No set-up/configuration required

**2.13 OBS Log Number: 350888**

Customer Ref:  
 Reporter: Leon Winchester  
 Summary of Call Prevent copying of barcodes with stock  
 Detail of Fix Rule at warehouse level NCSB when enabled will NOT copy the barcodes when creating a new stock code.  
 Set-up and Configuration

Registry/Rules Settings		
Path & Name	Setting Value	Result
WHSE/NCSB	N / blank	Stock barcodes are copied with stock information
WHSE/NCSB	Y	Stock barcodes are not copied with stock information

**2.14 OBS Log Number: 350891**

Customer Ref:  
 Reporter: Matthew Tipping  
 Summary of Call ASN Development  
 Detail of Fix New Customer ASNs  
 Set-up and Configuration No set-up/configuration required

**2.15 OBS Log Number: 351174**

Customer Ref: ASNs  
 Reporter: Jim Patterson  
 Summary of Call ASN - trailer id in CTMS interface  
 Detail of Fix Fix to writing trailer id back from CTMS to WMS - now references trip stop.  
 Set-up and Configuration No set-up/configuration required

**2.16 OBS Log Number: 351287**

Customer Ref:  
 Reporter: Matthew O'Grady  
 Summary of Call New Projected short report  
 Detail of Fix New Predicted Short Allocated report  
 Set-up and Configuration

New Screens		
Suggested Menu Path	Screen ID	Screen Description
Warehousing / warehousing reports	WHS3060	Predicted Shortages Report

**2.17 OBS Log Number: 351329**

Customer Ref:  
 Reporter: Harry Moran  
 Summary of Call Add empty location % to Empty location r  
 Detail of Fix Two counts have been added to the bottom of the Empty Locations Report. 'Number of empty locations' is a count of the number of empty locations followed in the selection followed by the percentage of the selected locations that are empty. 'Number of full locations' is a count of the number of full locations (status 7 and stock on hand in location).  
 Set-up and Configuration No set-up/configuration required

**2.18 OBS Log Number: 346311**

Customer Ref: Pallet Tracking  
 Reporter: Phil Harding  
 Summary of Call Pallet Tracking - write result

New PALTRACK report type added to Oracle Reporting Suite.

#### Detail of Fix

Oracle Reporting Control screen amended to include Count, Sum and Grp By options. Currently only the Grp By and Count options are enabled and only for the new PALTRACK report type.

This allows a report to be generated to count the number of pallets of each type despatched on each order.

#### Set-up and Configuration

No set-up/configuration required

## 2.19 OBS Log Number: 346684

Customer Ref: EDI input - CSV  
 Reporter: Colin Cook  
 Summary of Call: EDI message input - CSV formats  
 Detail of Fix: Various CSV imports and exports.  
 Set-up and Configuration: No set-up/configuration required

## 2.20 OBS Log Number: 347711

Customer Ref: SSCC processing upd  
 Reporter: Phil Harding  
 Summary of Call: SSCC processing update  
 Detail of Fix: Packing when SSCC functionality enabled will not remove picking containers  
 Set-up and Configuration: No set-up/configuration required

## 2.21 OBS Log Number: 348575

Customer Ref: Ad-hoc move EDI  
 Reporter: Paul Wilshaw  
 Summary of Call: Ad-hoc move - create an EDI message  
 Detail of Fix: Outbound EDI flow to show warehouse movements  
 Set-up and Configuration: No set-up/configuration required

## 2.22 OBS Log Number: 349100

Customer Ref: CS-AVTHHR  
 Reporter: Craig Stevens  
 Summary of Call: Changes to Original RIO CS - ANRBJ5  
 Detail of Fix: MCS Scanning Solution Changes  
 Set-up and Configuration:

Registry/Rules Settings		
Path & Name	Setting Value	Result
Warehouse rule - MCSW	Y/N	Enable MCS Warehousing functionality
Owner Rule - MBGR	Y/N	Sets MCS Blind Goods Receipt

## 2.23 OBS Log Number: 349501

Customer Ref: Po No: 106337  
 Reporter: Pam Hodgkinson  
 Summary of Call: DEB: CFS Sortation Store Groups  
 Detail of Fix: Added CFS sortation groups to DCC label format  
 Set-up and Configuration: No set-up/configuration required

## 2.24 OBS Log Number: 349841

Customer Ref:  
 Reporter: Matthew Tipping  
 Summary of Call: Partial Order Allocation - Changes  
 Add new 'force allocate' parameter to WMS allocation, allowing functionality to be run against a pick wave as well as an order. Ensure pick wave screen allows user to send picks to RF even if ORDER WELL record is not marked to allocated.  
 Detail of Fix:  
 The force allocate buttons only visible if RFPA (RF-Partial Allocation) flag set to Yes.  
 Set-up and Configuration: No set-up/configuration required

**2.25 OBS Log Number: 350026**

**Customer Ref:** CUBING  
**Reporter:** Nigel Baldwin  
**Summary of Call** Cubing part picks  
 Cubing Phase 1.

Owner Warehouse Parameters - Set cubing req to yes and enter remaining details on the Cubing tab.

Stock - set layer height. Only stock with a layer height can be cubed. Set PROD\_STRENGTH.

**Detail of Fix**

Cubing will then be done automatically as part of the allocation routine, and will create new pages on the pick slip, one per pallet.

All stock in pick faces is eligible for cubing.

Stock coming from Bulk is not cubed.

**Set-up and Configuration**

No set-up/configuration required

**2.26 OBS Log Number: 350160**

**Customer Ref:** DYNAMIC PICKS  
**Reporter:** Matt Tipping  
**Summary of Call** Add Dynamic Pick for Cust Restricts

The specification stated that BUILD\_UP\_LOCN22 was to be used to store the dynamic pick location but that was already used. BUILD\_UP\_LOCN25 has been added. This will need to be populated outside of the system as it has not been added to the maintenance screen. ALLOC\_RESTRICT on STK\_STOCKIST will also need to be populated outside of the system as it has not been added to the maintenance screen.

**Detail of Fix**

The allocation process has been changed to check this flag and location. If the flag is set to '??', the location has been entered and a replenishment is required this location will be used instead of the defined pick face if a different issue life has been entered against the order line which results in stock being allocated out of sequence, i.e. if the stock would have been out of date if the stock issue life was used or if stock with an earlier sell by date would have been allocated. This only applies to stock with the Allocation Sequence set to 'Sell By Date'.

**Set-up and Configuration**

No set-up/configuration required

**2.27 OBS Log Number: 350459**

**Customer Ref:** CUBING  
**Reporter:** Nigel Baldwin  
**Summary of Call** Cubing part picks phase 2

**Detail of Fix**

Cubing phase 2. Allows alternate despatch pallets to be entered against customers, with alternate build height data. Cases per layer, layers per pallet and layer height data can be entered per stock code/pallet type. Owner level build height data and stock level layer information will be used where new data not set.

**Set-up and Configuration**

New Screens		
Suggested Menu Path	Screen ID	Screen Description
OF_CUST0001	SOPCPLT01A	Customer Pallet Type (Cubing)

**2.28 OBS Log Number: 350671**

**Customer Ref:**  
**Reporter:** Matt Turner  
**Summary of Call** Unallocated Report  
**Detail of Fix** New screen - short picking report

**Set-up and Configuration**

New Screens		
Suggested Menu Path	Screen ID	Screen Description
Warehousing/warehousing reports	WHS3150	Short picking report

**2.29 OBS Log Number: 350677**

**Customer Ref:**  
**Reporter:** Matt Tipping  
**Summary of Call** Switch INSDDES warehouse to NAD+LSP code

**Detail of Fix**

The inbound EDI sales order files INSDDES will assess the target warehouse using a different segment in the file.

The warehouse will be assessed using the NAD+LSP segment instead of the NAD+BY segment and translated as the WAREHOUSE\_GLN instead of the WAREHOUSE\_CUST\_ANA.

**Set-up and Configuration**

No set-up/configuration required

**2.30 OBS Log Number: 350919**

**Customer Ref:**

**Reporter:** Leon Winchester

**Summary of Call** Packing usability changes

**Detail of Fix** When new warehouse rule PRCS is set to Y the SSCC numbers can be printed from within the packing screens Default printers can be set using program WHS1945\_SSCC

**Set-up and Configuration**

Registry/Rules Settings		
Path & Name	Setting Value	Result
Warehouse - PRCS	Y	SSCC labels can be printed in packing screen

**2.31 OBS Log Number: 350969**

**Customer Ref:**

**Reporter:** Matt Tipping

**Summary of Call** Sell by date Visibility on Gun

**Detail of Fix** If the RFPI warehouse rule is set to ?B? the ?Pick Text? in the 121 message is set to the sell by date plus the first 22 characters of the stock description.

**Set-up and Configuration**

Registry/Rules Settings		
Path & Name	Setting Value	Result
RFPI Warehouse Rule	B	'Pick Text' in 121 messages set to sell-by date plus first 22 characters of stock description

**2.32 OBS Log Number: 351187**

**Customer Ref:**

**Reporter:** Leon Winchester

**Summary of Call** Customer Class Filter - Shortage Report

**Detail of Fix** Shortage report - Customer class filter added

**Set-up and Configuration** No set-up/configuration required

**2.33 OBS Log Number: 351238**

**Customer Ref:** Heavey - Outbound

**Reporter:** Phil Harding

**Summary of Call** Heavey - Outbound Interface

**Detail of Fix** Heavey - Outbound Interface

**Set-up and Configuration** No set-up/configuration required

**2.34 OBS Log Number: 349527**

**Customer Ref:**

**Reporter:** Leon

**Summary of Call** Losing SSCC number on WCS on PO REceipts

**Detail of Fix** Populate customer pallet ID on Z8 111 message.

**Set-up and Configuration** No set-up/configuration required

## 3 SUPPORT INCIDENTS

### 3.1 OBS Log Number: 349658

Customer Ref: No Ref  
 Reporter: Nigel Baldwin  
 Summary of Call Sell by date in adjustment screen  
 Detail of Fix Added sell by date to configurable stock adjustments screen  
 Set-up and Configuration No set-up/configuration required

### 3.2 OBS Log Number: 349980

Customer Ref: N/A  
 Reporter: Colin Cook  
 Summary of Call EDI invoice output error  
 Detail of Fix Correct error handling when creating multiple files  
 Set-up and Configuration No set-up/configuration required

### 3.3 OBS Log Number: 350085

Customer Ref: INC22671758  
 Reporter: Craig Stevens  
 Summary of Call PO Suggestion screen  
 Detail of Fix Screen amendments to display POs and correctly generate EDI  
 Set-up and Configuration No set-up/configuration required

### 3.4 OBS Log Number: 350282

Customer Ref: N/A  
 Reporter: Michael Huxley  
 Summary of Call Release ER026-008  
 Detail of Fix Correctly retrieve store group when store code has a leading zero.  
 Set-up and Configuration No set-up/configuration required

### 3.5 OBS Log Number: 350493

Customer Ref: Issue 3  
 Reporter: LBW  
 Summary of Call Goods Receipt Confirmation  
 A new owner rule (TTRQ - Trailer Temp Required At Goods Receipt) has been added.  
 Detail of Fix If the rule is set to "Y" for the owner of a GRN the 'Trailer Temp' will be a required field and it will not be possible to receipt confirm the GRN without entering a value.  
 If the rule is not set or is set to any other value the 'Trailer Temp' will be optional so may be left blank.

#### Set-up and Configuration

Registry/Rules Settings		
Path & Name	Setting Value	Result
TTRQ Owner Rule	Y	Trailer Temp becomes a required field in Goods Receipt Confirmation (WHS0150). If the rule is set to "Y" you cannot receipt confirm the GRN without entering a trailer temperature.

### 3.6 OBS Log Number: 350500

Customer Ref: Issue 7  
 Reporter: LBW  
 Summary of Call Pick Wave Maintenance  
 Detail of Fix The sort buttons in the Load Enquiry tab will not display messages for missing items when they are pressed.  
 Set-up and Configuration No set-up/configuration required

**3.7 OBS Log Number: 350525**

<b>Customer Ref:</b>	No Ref
<b>Reporter:</b>	Craig Hopcroft
<b>Summary of Call</b>	Version release control for INVRPT files
<b>Detail of Fix</b>	The QTY segments in the INVRPT files will use a colon instead of a plus sign.
<b>Set-up and Configuration</b>	No set-up/configuration required

**3.8 OBS Log Number: 350537**

<b>Customer Ref:</b>	No Ref
<b>Reporter:</b>	Keri
<b>Summary of Call</b>	Need to strip charactes on cust ref The KER despatch note will omit the first 4 characters of the customer reference.
<b>Detail of Fix</b>	The KER label will also omit first 4 characters of the customer reference as the common references.
<b>Set-up and Configuration</b>	No set-up/configuration required

**3.9 OBS Log Number: 350542**

<b>Customer Ref:</b>	No Ref
<b>Reporter:</b>	Matt Tipping
<b>Summary of Call</b>	Putaway via RF not setting hold figures
<b>Detail of Fix</b>	Set hold figures on WLE plus order line no issue
<b>Set-up and Configuration</b>	No set-up/configuration required

**3.10 OBS Log Number: 350544**

<b>Customer Ref:</b>	No Ref
<b>Reporter:</b>	Steve Carpenter
<b>Summary of Call</b>	Changes to 349043 Whole pallet replen
<b>Detail of Fix</b>	Amend REPLENISH_STOCK procedure so that it can be run using the current operational setup.

## 4 TID CHANGES

### 4.1 OBS Log Number: 350067

Customer Ref: No Ref  
 Reporter: Craig Stevens  
 Summary of Call: SSCC Button in Desp Conf  
 Detail of Fix: Non display of SCC button  
 Set-up and Configuration: No set-up/configuration required

### 4.2 OBS Log Number: 350318

Customer Ref: DPD issue  
 Reporter: Howard Allen  
 Summary of Call: DPD upload addresses with long addresses  
 Detail of Fix: Amend order retrieval to cater for address lines that are long in WMS than received on the import from DPD.  
 Set-up and Configuration: No set-up/configuration required

### 4.3 OBS Log Number: 350453

Customer Ref: No ref  
 Reporter: Graham Rothwell  
 Summary of Call: Correction to change on log 349887  
 Detail of Fix: Correction to log 349887. Pallet ID had been changed to pad with zeroes instead of spaces. Changed back to spaces.  
 Set-up and Configuration: No set-up/configuration required

### 4.4 OBS Log Number: 350494

Customer Ref: Issue 21  
 Reporter: Matthew Tipping  
 Summary of Call: Barcode format incorrect  
 Detail of Fix: Barcode format changed to GS1-128. Includes (00) identifier for SSCC.  
 Set-up and Configuration: No set-up/configuration required

### 4.5 OBS Log Number: 350509

Customer Ref: Issue 22  
 Reporter: Leon Winchester  
 Summary of Call: Pack Creation - Check  
 Level RPPC (RF Pick Pack Container) rule  
 Detail of Fix: Add new option of P (partial) to the owner level RPPC (RF Pick Pack Container) rule.  
 This option will work the same as option L, but will create PACK records even when the order is still at status 5 (pick listed).

#### Set-up and Configuration

Registry/Rules Settings		
Path & Name	Setting Value	Result
Owner Level / RPPC (RF Pick Pack Container) rule	P	This option will work the same as option L, but will create PACK records even when the order is still at status 5 (pick listed).

### 4.6 OBS Log Number: 350543

Customer Ref: Partial Alloc error  
 Reporter: Dave Potter  
 Summary of Call: Partial Allocation - losing marshall loc  
 Detail of Fix: Ensure part allocated orders have marshall location correctly set, so PICK records and marshall pallet records are written correctly.  
 Set-up and Configuration: No set-up/configuration required

## 4.7 OBS Log Number: 350557

Customer Ref:	No ref
Reporter:	Julie Scott
Summary of Call	Partial allocation issue
Detail of Fix	Ensure 'force allocate' button works when the 'end date' is a future date, moving the order to status 4, even if the order is not fully allocated.
Set-up and Configuration	No set-up/configuration required

## 4.8 OBS Log Number: 350594

Customer Ref:	
Reporter:	matt tipping
Summary of Call	stk wareh showing bonded quantities
Detail of Fix	Added nvl to all bonded flag fields - ensure field set to No.
Set-up and Configuration	No set-up/configuration required

## 4.9 OBS Log Number: 350614

Customer Ref:	May 3 - 08:17
Reporter:	Leon Winchester
Summary of Call	Missing data in enquiry screen Pallet Movement Enquiry now displays customer pallet ID from the journal record (IAJD) instead of the customer pallets record (which is not always populated).
Detail of Fix	Several other enquires found using customer pallets record - changes to display Customer Pallet ID from journal record (IAJD) or pallet record (WLE) as required.
Set-up and Configuration	Customer Pallet ID also added to Stock Pallet Movement Enquiry. No set-up/configuration required

## 4.10 OBS Log Number: 350646

Customer Ref:	May 04 07:21
Reporter:	Phil Harding
Summary of Call	Inbound Pre Advice
Detail of Fix	Details no longer cleared when in line details tab as were not being repopulated when different produce code selected.
Set-up and Configuration	No set-up/configuration required

## 4.11 OBS Log Number: 350647

Customer Ref:	
Reporter:	Emily Collins
Summary of Call	Missing PICKING CONTAINERS records Added rule GSCP (Get SSCC Pallet Information).
Detail of Fix	If GSCP rule set to Yes and RPPC (RF Pick - Pack Creation) rule when set to P, if full pallet pick and SSCC reference field is blank, get data from Ware Despatch Details record.
Set-up and Configuration	

Registry/Rules Settings		
Path & Name	Setting Value	Result
Owner/GSCP	Y	In association with RPPC (RF Pick - Pack Creation) rule when set to P, if full pallet pick, get SSCC reference from Ware Despatch Detail record.
(Get SSCC Pallet Information)	Any other value	Standard functionality runs

## 4.12 OBS Log Number: 350672

Customer Ref:	Issue 07 May 10:42
Reporter:	Leon Winchester
Summary of Call	Order Enquiry
Detail of Fix	It is once again possible to sort on the Customer Name, Customer Address 1, Customer Address 2, Customer Town, Country and Postcode columns.
Set-up and Configuration	No set-up/configuration required

### 4.13 OBS Log Number: 350673

<b>Customer Ref:</b>	Issue 6th May 14:52
<b>Reporter:</b>	Leon Winchester
<b>Summary of Call</b>	Pick Pallet Error Default of ?N? added for ?Check Stock Date? flag so if this is not set in either System Parameters or Owner System Parameters then no warnings or errors are issued if an out of date pallet is entered and the LOV displays all pallets with stock available.
<b>Detail of Fix</b>	LOV also changed to treat an issue life of 0 to mean ignore sell by date, as it does in allocation if the issue life of the stock code is 0.
<b>Set-up and Configuration</b>	No set-up/configuration required

### 4.14 OBS Log Number: 350738

<b>Customer Ref:</b>	JS - Request
<b>Reporter:</b>	Julie
<b>Summary of Call</b>	Stock Take - WMS Screen Handling Supplier (code and sub-code) added to Stock Take - New Data Input screen (WHS0542). Validation and lookup copied from Stock Adjust Add Pallet screen (WHS0631), so checks APSR owner rule. If the rule is set to ?Y? the supplier will be a required field, so cannot be left blank. If the flag is set to ?D? the supplier will be defaulted to the normal supplier of the stock code. The supplier entered must exist on the system.
<b>Detail of Fix</b>	

#### Set-up and Configuration

Registry/Rules Settings		
Path & Name	Setting Value	Result
Users/<username>/GeneralSettings/AlternatePartnerLocator	PFS0635	The screen PFS0635 will be used as the lookup screen for the supplier when the LOV is invoked.

### 4.15 OBS Log Number: 350862

<b>Customer Ref:</b>	Short pick report
<b>Reporter:</b>	Dave Potter
<b>Summary of Call</b>	Error with short pick report
<b>Detail of Fix</b>	Ensure 'status description' field corresponds to the 'order status' field.
<b>Set-up and Configuration</b>	No set-up/configuration required

### 4.16 OBS Log Number: 351136

<b>Customer Ref:</b>	No ref
<b>Reporter:</b>	Julie Scott
<b>Summary of Call</b>	Replen - Trigger Message Add new ETMR (Exclude Top-up Moves Request).
<b>Detail of Fix</b>	Add new ETMR (Exclude Top-up Moves Request).  If set, when calculating the RF priority of an allocation created replenishment move RF message, exclude any corresponding Top Up moves.

#### Set-up and Configuration

Registry/Rules Settings		
Path & Name	Setting Value	Result
Owner / ETMT	Y	When calculating the RF priority of an allocation created replenishment move RF message, exclude any corresponding Top Up moves.
Exclude Top-up Moves Request	Not set, or any other value	No change in functionality

### 4.17 OBS Log Number: 351138

<b>Customer Ref:</b>	No ref
<b>Reporter:</b>	Julie Scott
<b>Summary of Call</b>	Receipts - Code Change
<b>Detail of Fix</b>	If despatch confirm by route/load and one or more orders fail but others confirm successfully the DESP message is now produced for those that confirmed successfully.
<b>Set-up and Configuration</b>	No set-up/configuration required

**4.18 OBS Log Number: 351234**

Customer Ref: No ref  
 Reporter: Emily  
 Summary of Call: Marshalling Updates  
 Detail of Fix: Updates to Marshalling Process  
 Set-up and Configuration: No set-up/configuration required

**4.19 OBS Log Number: 351262**

Customer Ref: Stock Rec Rep err 2  
 Reporter: Dave Potter  
 Summary of Call: Transactional report changes  
 Amend transaction report to select ware transfers and sales order returns  
 Detail of Fix: Fix issue with how customer supplier field links to customer/supplier record  
 For despatch message, display order description rather than despatch note no.  
 Set-up and Configuration: No set-up/configuration required

**4.20 OBS Log Number: 351367**

Customer Ref: stock rec rep err 3  
 Reporter: Dave Potter  
 Summary of Call: Summary report change  
 1) When calculating initial closing balance, don't exclude pallets awaiting putaway  
 Detail of Fix: 2) Ensure opening balances found correctly  
 3) Ensure receipts value based on receipt rather than putaway.  
 4) Set closing balance as count of WLE on hand cases, not calculated value.  
 Set-up and Configuration: No set-up/configuration required

**4.21 OBS Log Number: 351433**

Customer Ref: No Ref  
 Reporter: Dave Potter  
 Summary of Call: Add EESL rule to match package  
 Note: This will not change functionality, but will help with investigating EDI stock upload issue.  
 Detail of Fix: If new EDI rule EESL (Extended EDI Sales Order logging) is set to Yes and EDI sales order format is set to RNC, then write extra audit records in procedure 'get\_rnc\_stock\_code'.

**Set-up and Configuration**

Registry/Rules Settings		
Path & Name	Setting Value	Result
Ownr / EESL	Y	If EDI format is set to RNC, and rule flag set to Yes, write extra records to PROGRAM AUDIT TRAIL table
Extended EDI Sales Order logging	Any other setting	No change to functionality

**4.22 OBS Log Number: 350194**

Customer Ref: KS1  
 Reporter: Keith Seabury  
 Summary of Call: STS1000 - Audit Flag field size  
 Detail of Fix: Increase the size of the Audit flag field on the General tab of STS1000  
 Set-up and Configuration: No set-up/configuration required

**4.23 OBS Log Number: 350222**

Customer Ref: No ref  
 Reporter: Peter Hill  
 Summary of Call: EDI ORDER upload error  
 Detail of Fix: Line type 3 missing items fix  
 Set-up and Configuration: No set-up/configuration required

## 4.24 OBS Log Number: 350124

<b>Customer Ref:</b>	No ref
<b>Reporter:</b>	Paul Roscoe
<b>Summary of Call</b>	Amendments to EDI mapping Changes to the EDI mapping have been made for the EDIFACT files for the latest data setup.
<b>Detail of Fix</b>	A new 'PRE_UPLOAD' EDI process will be required to split the inbound EDI files to the appropriate directory to upload into the expected warehouse for purchase orders, sales orders and GRNs for ASNs.
<b>Set-up and Configuration</b>	No set-up/configuration required

## 4.25 OBS Log Number: 350937

<b>Customer Ref:</b>	Alloc Chg
<b>Reporter:</b>	Dave Potter
<b>Summary of Call</b>	Further allocation changes Change allocation replenishment functionality  Added 2 new owner rules
<b>Detail of Fix</b>	ASRC (allocation specific Replenishment change) - allows allocation replenishments to be run even when defined picks disabled  PARS (post allocation Replenishment sortation) - allows users to control whether the replenishment prioritises part or full pallets

### Set-up and Configuration

Registry/Rules Settings		
Path & Name	Setting Value	Result
Owner / ASRC	Y	Generate replenishments when ?Default Pick Usage? is set to No
Allocation specific Replenishment change	Not set / Any other value	Pre-existing functionality
Owner / PARS	F or P	Sort post allocation replenishment - prioritise full pallets or part pallets first
Post allocation Replenishment sortation	Not set / Any other value	No extra sortation

## 4.26 OBS Log Number: 350483

<b>Customer Ref:</b>	Issue 19
<b>Reporter:</b>	LBW
<b>Summary of Call</b>	ERROR Log - FW: product details change
<b>Detail of Fix</b>	Error if changing stock code and stock code changing to does not exist for warehouse, i.e. has no stock warehouse record.
<b>Set-up and Configuration</b>	No set-up/configuration required

## 5 OBSL PRODUCT DEVELOPMENT

### 5.1 OBS Log Number: 350482

<b>Reporter:</b>	Paul Roscoe
<b>Summary of Call</b>	Version release control Version release control of branched versions for EDI processes.
<b>Detail of Fix</b>	Also now maps the end delivery date if provided then, if not, the delivery date for the end delivery date of the sales order master record.
<b>Set-up and Configuration</b>	No set-up/configuration required

### 5.2 OBS Log Number: 348983

<b>Reporter:</b>	Craig Hopcroft
<b>Summary of Call</b>	RF receipting not warning on min intake
<b>Detail of Fix</b>	RF receipt checks min intake life
<b>Set-up and Configuration</b>	No set-up/configuration required

### 5.3 OBS Log Number: 350481

<b>Reporter:</b>	Paul Roscoe
<b>Summary of Call</b>	Version release control
<b>Detail of Fix</b>	Version release control of branched programs.
<b>Set-up and Configuration</b>	No set-up/configuration required

### 5.4 OBS Log Number: 350578

<b>Reporter:</b>	Keith Seabury
<b>Summary of Call</b>	Error 41081 in pick wave maintenance The details tab in the Pick Wave Control screen (LAS0312) has a configurable layout but was not wide enough for all fields to be added. The width of the scrolling canvas has been increased to accommodate all fields being displayed.
<b>Detail of Fix</b>	Warning messages 18750 and 18751 were missing from the dynamic messages table. These have will be added with this release.
<b>Set-up and Configuration</b>	No set-up/configuration required

### 5.5 OBS Log Number: 349955

<b>Reporter:</b>	Emily Collins
<b>Summary of Call</b>	RDT picking - set marshalling location
<b>Detail of Fix</b>	Set marshalling location if value on picking headers is null so orders still despatch
<b>Set-up and Configuration</b>	No set-up/configuration required

### 5.6 OBS Log Number: 349858

<b>Reporter:</b>	Leon Winchester
<b>Summary of Call</b>	GRN REC Conf screen displays cancel GRNs
<b>Detail of Fix</b>	Exclude cancelled grns from lookups.
<b>Set-up and Configuration</b>	No set-up/configuration required

## 7 ADDITIONAL CHANGES

### 7.1 WCS

A WCS change is required for the following logs:

- Log 349887
- Log 348983
- Log 349132
- Log 350926

### 7.2 EDI

There are no EDI changes required.

### 7.3 MANUAL

An manual change is required for the following logs:

- Log 349281 (DP\_CTMS\_INTERFACE v4.14)
- Log 351141 (DP\_CTMS\_INTERFACE v4.15)
- Log 351174 (DP\_CTMS\_INTERFACE v4.16)

### 7.4 .NET

A .NET change is required for the following logs:

- Log 349973 (v1.0.0.16)
- Log 348070 (v1.0.0.17)

### 7.5 Additional Information

Grouping options have been added to the INVENTORY report, along with Sum options for the quantities at PALLET level (WLE).

Please note that this means that any existing saved INVENTORY reports will need to be deleted and recreated when the code changes are released.
