1 SUMMARY INTRODUCTION

1.1 INTRODUCTION

The main aim of this document is to provide *CALIDUS* WMS users with the level of detail required to accurately test all software included in the patch. The document also contains set-up and configuration details to enable the user to configure the system correctly for the new functionality to work.

1.1.1 GLOSSARY OF TERMS

Term	Meaning
C-TMS	Transport Management System
C-WMS	Warehouse Management System
CR	Change Request
C-WCS	Warehouse Control System
C-ePOD	Electronic Proof of Delivery
C-MCS	Mobile Control System
C-TTM	Track and Trace Management
EDI	Electronic Data Interchange
TID	Testing Issue Development, or Log

1.2 TESTING PROCESS

1.2.1 TIDs AND RESOLUTION

If there are any areas of the functionality that are not acceptable or do not meet the requirement specified in the Change Request then these should be expressed by raising a TID.

1.2.2 FINAL 'END TO END' TESTING

Prior to release to a production database, a full 'End to End' test is required on the test system by all sites using the database. Once this is signed off, a release date can be arranged.

1.2.3 AUTHORISATION

Authorisation from nominated release personnel only will be required when requesting a release to a production environment

2 CHANGE REQUESTS

2.1 Customer Ref: PREADV EDI Development

OBS Log Number: 352117
Summary of Call PREADV EDI Development
Detail of Fix Create new JO1 format EDI pre-advice upload.

Set-up and Configuration

Registry/Rules Settings		
Path & Name	Setting Value	Result
Owner/PAMD	Y	Set manufacturing date
Pre-advise manufacture date	Not set or any other value	Do not set manufacturing date
Owner / DEGS	Y	Generate supplier code using supplier name plus sequential number
Derive EDI GRN Supplier Code	Not set or any other values	Do not generate supplier code
Owner / ATGR	Y	Check 'test flag' and if set to 1, raise error
Allow Test Goods Receipt	Not set or any other values	Do not check 'test flag'

2.2 Customer Ref: INSDES EDI Development

OBS Log Number: 352118
Summary of Call INSDES EDI Development
 New INSDES sales order file processing for format JO1.

The EDI process will need to be setup for this EDIFACT file format to extract the data from the file segments.

Default WMS translations will be required:

DEFAULT_SUPP_CODE

Detail of Fix DEFAULT_CUST_CODE (for web orders)

New owner rules can be used to process the data:

ATSO (Allows a test INSDES sales order to be uploaded into WMS when Y)

NCBA (Uses the buyer's address of the sales order in preference to the delivery address for the address of the new customer when Y)

New EDI directories in UNIX and the FTP server will be required for the new EDI processes.

Set-up and Configuration

Registry/Rules Settings		
Path & Name	Setting Value	Result
ATSO	Y	Allows a test INSDES sales order to be uploaded into WMS.
ATSO	N	Does not allow a test INSDES sales order to be uploaded into WMS.
NCBA	Y	Uses the buyer's address of the sales order in preference to the delivery address for the address of the new customer.
NCBA	N	Uses the delivery address of the sales order for the address of the new customer.

2.3 Customer Ref: DESADV EDI Development

OBS Log Number: 352120
Summary of Call DESADV EDI Development
 New DESADV sales order file processing for format JO1.

The EDI process will need to be setup for this EDIFACT file format to generate the file when the sales order is despatched from the warehouse.

Default WMS translations will be required to construct the UNA, UNB and UNH segments for code DESADV-OUT-JO1.

Detail of Fix WMS translations for this code will also be required to translate the warehouse pallet types to the codes that are recognised in the QTY segments (e.g. BOX as PK for Package, EUR as 201 for Euro Pallet, STD as 202 for Standard Pallet).

A new owner rule can be used to process the data:

IUNA (The UNA segment will be included in the outbound EDIFACT file format when Y)

New EDI directories in UNIX and the FTP server will be required for the new EDI processes.

Set-up and Configuration

Registry/Rules Settings		
-------------------------	--	--

Path & Name	Setting Value	Result
IUNA	Y	The 'UNA' segment will be included in the outbound EDIFACT file format.
IUNA	N	The 'UNA' segment will not be included in the outbound EDIFACT file format.

2.4 Customer Ref: RECADV EDI Development

OBS Log Number:	352121
Summary of Call	RECADV EDI Development
Detail of Fix	Standard EDI Interface RECADV
Set-up and Configuration	No set-up/configuration required

2.5 Customer Ref: INSDDES - FTX Segment

OBS Log Number:	353820
Summary of Call	INSDDES - FTX Segment to be added
Detail of Fix	Added FTX segment at detail level for the JO1 format of the INSDDES file
Set-up and Configuration	No set-up/configuration required

2.6 Customer Ref: SCR 29 Key in or Upload

OBS Log Number:	352067
Summary of Call	SCR 29 Key in or Upload orders
Detail of Fix	New csv order import (OBS). New interface tables to allow portal to upload and monitor results.
Set-up and Configuration	No set-up/configuration required

2.7 Customer Ref: SCR-350299-07

OBS Log Number:	352074
Summary of Call	SCR 7 Full Container Picking
Detail of Fix	Full Container Picking.
Set-up and Configuration	No set-up/configuration required

2.8 Customer Ref: SCR-350299-10

OBS Log Number:	352077
Summary of Call	SCR 10 Outbound Order Booking Changes
Detail of Fix	Bay Diary outbound order changes.
Set-up and Configuration	No set-up/configuration required

2.9 Customer Ref: Stock Snapshot update

OBS Log Number:	352387
Summary of Call	Stock Snapshot update - add ROTATION_NO
Detail of Fix	Add rotation number to OBI format stock snapshot
Set-up and Configuration	No set-up/configuration required

2.10 Customer Ref: Shipment Pallet

OBS Log Number:	352680
Summary of Call	Shipment Pallet Despatch
Detail of Fix	Fix issues when despatching by shipment pallet.
Set-up and Configuration	Created pack detail per related WDD.

Set-up and Configuration

Registry/Rules Settings		
Path & Name	Setting Value	Result
PDWD	Y	Pack detail generated at Ware Despatch Detail level for stock packing

2.11 Customer Ref: Rotation

OBS Log Number:	352860
Summary of Call	Directed to pick stock that isnt there
Detail of Fix	Set rotation no to blank if set to +
Set-up and Configuration	No set-up/configuration required

2.12 Customer Ref: Sell-by Date RF Update

OBS Log Number:	352895
Summary of Call	Validate receipt against minimum or last Create new 'Sell By Date' (SD) option for 171 message.
Detail of Fix	The 'sell by date' field will be populated in the created 711 message if another pallet exists with a longer sell by date.
Set-up and Configuration	No set-up/configuration required

2.13 Customer Ref: PO 106389

OBS Log Number:	353505
Summary of Call	Stock Snapshot
Detail of Fix	Change calculation of free stock after GRN's when negative.
Set-up and Configuration	No set-up/configuration required

2.14 Customer Ref: Change Script (348969)

OBS Log Number:	353533
Summary of Call	Change to date change script (348969)
Detail of Fix	Amendment to process that runs weekly to set the manufacture dates of pallets in shelving locations to 01/01/2015.
Set-up and Configuration	No set-up/configuration required

2.15 Customer Ref: SCR-350299-07

OBS Log Number:	353555
Summary of Call	Job/Registration changes
Detail of Fix	Bay Diary, Container Yard and wms changes related to full container picking.
Set-up and Configuration	No set-up/configuration required

2.16 Customer Ref: Auto Export

OBS Log Number:	353767
Summary of Call	Auto export report (WHS8130) thru XF Mon
Detail of Fix	Add option to anticipated revenue processing to run the 'All Charges' process via XF-Monitor.
Set-up and Configuration	No set-up/configuration required

2.17 Customer Ref: 354259

OBS Log Number:	354282
Reporter:	Craig Hopcroft
Summary of Call	DUE_DATE TIME not being set in CY_MOVES
Detail of Fix	Set due_datetime for Container Yard Movements
Set-up and Configuration	No set-up/configuration required

2.18 Customer Ref: INSDS/PREADV

OBS Log Number:	353553
Summary of Call	INSDS/PREADV file to exc UNA from count
Detail of Fix	The EDIFACT files will exclude any UNA segments from the validation of the UNT segment count and the pre-advice GRN will allow the NAD+BY segment to be extracted with more than 10 characters to map to the owner code for the JO1 format.
Set-up and Configuration	No set-up/configuration required

2.19 Customer Ref: DESADV (outbound)

OBS Log Number:	353901
Summary of Call	DESADV (outbound) changes required
Detail of Fix	Minor fixes to JO1 format DESADV, ensure customer identifier is always displayed
Set-up and Configuration	No set-up/configuration required

2.20 Customer Ref: 352058

OBS Log Number:	353970
Summary of Call	SCR 2 Vessels Management
Detail of Fix	Drilldown from Voyage Maint to GRN Conf to always show Header Details.
Set-up and Configuration	No set-up/configuration required

2.21 Customer Ref: 352062

OBS Log Number:	353979
Summary of Call	SCR 22 - Additional changes
Detail of Fix	Changes to GRN validation of Voyage. Also Container yard package changed as causing issues when no bay diary entry.
Set-up and Configuration	No set-up/configuration required

3 SUPPORT INCIDENTS

3.1 Customer Ref: Auto-despatch

OBS Log Number:	352021
Summary of Call	Auto-despatch incorrect
Detail of Fix	Amended update procedure, so if order is short packed, the despatched quantity is updated correctly.
Set-up and Configuration	No set-up/configuration required

3.2 Customer Ref: Replen

OBS Log Number:	352587
Summary of Call	System replen issue
Detail of Fix	Do not replenish out of stock pallets from bulk to pick.
Set-up and Configuration	Add warehouse level rule 'SELL' logic to screen to keep it in line with warehouse allocation.
	No set-up/configuration required

3.3 Customer Ref: Stock Report

OBS Log Number:	352635
Summary of Call	Issue with stock rec report
Detail of Fix	Resolve issue with Stock Report
Set-up and Configuration	No set-up/configuration required

3.4 Customer Ref: Pick Confirm

OBS Log Number:	352874
Summary of Call	Unable to pick confirm order
Detail of Fix	Amend short versus picked check to cater correctly for order lines with multiple pick tasks.
Set-up and Configuration	No set-up/configuration required

3.5 Customer Ref: CTMS/WMS Interface

OBS Log Number:	352936
Summary of Call	CTMS / WMS Interface - load update issue
Detail of Fix	Route/loads that have had all their sales orders deassigned to match the trip will be deleted.
Set-up and Configuration	This will apply to whole trips being deleted, the last sales order being deassigned, or the route code of the trip being changed.
	No set-up/configuration required

3.6 Customer Ref: Auto Printing

OBS Log Number:	353086
Summary of Call	Labels not auto printing from Order Pack
Detail of Fix	The Close List button in the Pack Confirmation screen will print pack labels and despatch labels should they be configured with a format for the pack parameters and the stock code.
Set-up and Configuration	A default printer can be configured for the labels for the program WHS1945 and the user.
	The user will be informed if the labels could not be printed.
	No set-up/configuration required

3.7 Customer Ref: Release of UOM

OBS Log Number:	353205
Summary of Call	Release of UOM description
Detail of Fix	UOM litres conversion insert
Set-up and Configuration	No set-up/configuration required

3.8 Customer Ref: EDI Product Master

OBS Log Number:	353207
------------------------	--------

Summary of Call	Incorrect error message
Detail of Fix	Set various flags to default values when importing product masters
Set-up and Configuration	No set-up/configuration required

3.9 Customer Ref: No Ref

OBS Log Number:	353389
Summary of Call	Returns testing
Detail of Fix	Correct return message to WCS so reason code can be processed.
Set-up and Configuration	No set-up/configuration required

3.10 Customer Ref: No ref

OBS Log Number:	353513
Summary of Call	Multi-pallet location pallet swap Changes to the RDT pick confirmation message process: Stores customer pallet ID for PICK transactions.
Detail of Fix	Uses RFO1 rules not RPCA rule for the location type for the 121 message. Includes exchanged pallet details for the new picking containers, packs and PICK transactions. Moves exchanged pallet into the marshalling location when pick confirmed.
Set-up and Configuration	No set-up/configuration required

3.11 Customer Ref: INC25363411

OBS Log Number:	353657
Summary of Call	Unable to find data in deal screen.
Detail of Fix	Improve performance when finding / checking deals
Set-up and Configuration	No set-up/configuration required

3.12 Customer Ref: Despatch Note

OBS Log Number:	353712
Summary of Call	Remove returns number on GE1 desp note
Detail of Fix	Remove returns number from GE1 format despatch note
Set-up and Configuration	No set-up/configuration required

3.13 Customer Ref: PO 106399

OBS Log Number:	353858
Summary of Call	Move changes from branch to main(353822)
Detail of Fix	Amend GEN despatch note format to use dynamic reason codes, as used on GE1/GE2 version)
Set-up and Configuration	No set-up/configuration required

3.14 Customer Ref: PREADV/RECADV

OBS Log Number:	353874
Summary of Call	PREADV/RECADV testing issues The processing of PREADV files has been changed: The test indicator will be assessed as a live file by default and the owner rule ATGR will be used to allow test files to be uploaded into WMS to create the GRN. The processing of RECADV files for format JO1 has been changed: The manual GRNs will only be included when the owner flag allows all GRNs and not just EDI GRNs to be included. The test indicator will be included in the 11th section in the UNB segment. The NAD_BY segment will include the code and name of the owner of the goods in the warehouse. The code will match the code in the 3rd section in the UNB segment. The NAD+LSP segment will include the code and name of the company that is storing the goods. The company code will be translated first using the COMPANY_GLN value for the COMP level or the COMPANY_CODE value for the OWNR level should those translations exist. The NAD_SF segment will include the code and address of the supplier of the goods. The supplier code will be translated first using the SUPPLIER_GLN value for the OWNR level or the SUPPLIER_CODE value for the OWNR level should those translations exist. GLN codes will be identified by a 9 otherwise the codes will be identified by ZZZ.
Detail of Fix	No set-up/configuration required
Set-up and Configuration	No set-up/configuration required

3.15 Customer Ref: Not supplied

OBS Log Number:	353904
Summary of Call	Orders being sent twice
Detail of Fix	For trips with a route/load that have a route code of more than 6 characters the despatch advice message sent to WCS was failing due to the field size. This allowed the route/load to be reconfirmed and in some instances cause duplicate EDI despatch messages to be resent.
Set-up and Configuration	No set-up/configuration required

3.16 Customer Ref: RECADV

OBS Log Number:	354058
Summary of Call	RECADV Segment Error
Detail of Fix	The UNT segment in the JO1 format of the RECADV file will contain a count of the segments between and inclusive of the UNB and UNT segments in the file.
Set-up and Configuration	No set-up/configuration required

3.17 Customer Ref: 352121

OBS Log Number:	354205
Summary of Call	Issues raised with RECADV file content Amendments in the RECADV file for the JO1 format.
Detail of Fix	Set BGM to always use 632 not 781 for non-purchase order receipts. Excludes GRNs without receipt lines so LIN segments always exist. Advised stock that is not received can have its GRN cancelled, or be updated with a received quantity of 0 and the GRN then confirmed, to generate a RECADV file with a received quantity of 0. Cancelled GRNs could be for the same advice note and thus multiple RECADV files could be produced should the stock be received and confirmed on a later GRN after its initial GRN has been cancelled.
Set-up and Configuration	No set-up/configuration required

3.18 Customer Ref: No Reference

OBS Log Number:	354279
Summary of Call	Pallet showing different qty on label
Detail of Fix	Amendment to KER format pack label to handle when pallet is split and packed onto two different pack levels.
Set-up and Configuration	No set-up/configuration required

3.19 Customer Ref: HO200000000000130153

OBS Log Number:	354369
Summary of Call	Pick Replacement
Detail of Fix	Pick replacement 121 message is correct length when order is not on a pick wave.
Set-up and Configuration	No set-up/configuration required

3.20 Customer Ref: Replen fix

OBS Log Number:	354394
Summary of Call	Further fixes to Replens
Detail of Fix	Use 611 RF message being active to send out 325 replenishment release.
Set-up and Configuration	No set-up/configuration required

3.21 Customer Ref: UAT Release

OBS Log Number:	354396
Summary of Call	Bay Diary linked changes
Detail of Fix	Fix to call wcs correctly from Bay Diary.
Set-up and Configuration	No set-up/configuration required

3.22 Customer Ref: Locking Issue

OBS Log Number:	354529
Summary of Call	Locking issue in streamlined GRN screen
Detail of Fix	Move the point the GRN is saved on confirmation, so the changes are saved before the user presses the 'OK' button.
Set-up and Configuration	No set-up/configuration required

3.23 Customer Ref: Missing ORS report

OBS Log Number:	351967
Summary of Call	Missing ORS report
Detail of Fix	Fix to fix outbound ors reports when using the force run button.
Set-up and Configuration	No set-up/configuration required

3.24 Customer Ref: STID error report

OBS Log Number:	352381
Summary of Call	STID error report
Detail of Fix	Stock Import EDI ensure control num is cleared each run
Set-up and Configuration	No set-up/configuration required

3.25 Customer Ref: Packing Screen Update

OBS Log Number:	353252
Summary of Call	Packing Screen Update
Detail of Fix	Enabled packing and shipments for multiple sales orders.
Set-up and Configuration	New owner rule AAST (Allow All Shipment Types) to perform the shipment pallet validated when set to Y.

Registry/Rules Settings		
Path & Name	Setting Value	Result
OWNR/AASP	Y	Allow all shipment pallet types to be validated
OWNR/AASP	N	Only allow pallet packing to be validated

3.26 Customer Ref: WHS0110 Update

OBS Log Number:	353469
Summary of Call	WHS0110 Update - Container Number Valida
Detail of Fix	Standard container number validation when new rule CNVL (Container Number VaLidation) is switched on for warehouse.

Set-up and Configuration		
Registry/Rules Settings		
Path & Name	Setting Value	Result
CNVL	Container Number Validation	Validate the format of the entered container number

3.27 Customer Ref: Break Case Issue

OBS Log Number:	353543
Summary of Call	Break Case Issue
Detail of Fix	Package changes to improve debug message for orders that need to break a case as part of allocation by rotation no functionality, when that case exists on an outstanding movement.
Set-up and Configuration	This is to ensure when movement is complete, the stock shows broken case quantity correctly. For example, 4 cases/6 units rather than 5 cases/-6 units.
Set-up and Configuration	No set-up/configuration required

3.28 Customer Ref: Screen size

OBS Log Number:	353588
Summary of Call	PFS3000W & PFS2110W screen size update
Detail of Fix	Screen sizes increased and number of displayed records increased.
Set-up and Configuration	No set-up/configuration required

3.29 Customer Ref: PoD label update

OBS Log Number:	354069
Summary of Call	PoD label update
Detail of Fix	Make vessel link optional on POD label.
Set-up and Configuration	No set-up/configuration required

3.30 Customer Ref: HVY Update

OBS Log Number:	354099
Summary of Call	HVY Update - route code length
Detail of Fix	Extend HVY route code to 10 characters
Set-up and Configuration	No set-up/configuration required

3.31 Customer Ref: Order Amendment

OBS Log Number:	354139
Summary of Call	Order Amendment update
Detail of Fix	Order Amendment update for none system generated order numbers
Set-up and Configuration	No set-up/configuration required

3.32 Customer Ref: CY_MOVES

OBS Log Number:	354190
Summary of Call	CY_MOVES not being created
Detail of Fix	Missing CY tables updates
Set-up and Configuration	No set-up/configuration required

3.33 Customer Ref: Bay Diary update

OBS Log Number:	354206
Summary of Call	Bay diary update - marshal location
Detail of Fix	Various changes following internal testing.
Set-up and Configuration	No set-up/configuration required

3.34 Customer Ref: GRN to HVY

OBS Log Number:	354207
Summary of Call	GRN to HVY - duplicated quantity
Detail of Fix	Request HVY putaway for only the receipted pallet
Set-up and Configuration	No set-up/configuration required

3.35 Customer Ref: CY_MOVES from GR

OBS Log Number:	354259
Summary of Call	CY_MOVES not being created from GR proc
Detail of Fix	Create Inbound moves for new containers
Set-up and Configuration	No set-up/configuration required

3.36 Customer Ref: 353890

OBS Log Number:	353907
Summary of Call	Main version for branch for 353890
Detail of Fix	This is the main version for the outbound EDI process for despatched sales orders in format SAI of the DESADV files.
Set-up and Configuration	No set-up/configuration required

3.37 Customer Ref: Confirmation Screen

OBS Log Number:	353415
Summary of Call	GRNs not showing on confirmation screen
Detail of Fix	

Amend DDU upload functionality so that if duplicate message received, cancel the original goods receipt, rather than deleting it.

Also, if an error is raised in the EDI header validation, don't delete/cancel the GRN. This is because the 'received GRN' check, if triggered, must stop the deletion /cancellation of the GRN to avoid the creation of orphan pallet records.

Set-up and Configuration

No set-up/configuration required

3.38 Customer Ref: No Ref

OBS Log Number:

353522

Summary of Call

Free location generation

Detail of Fix

Ensure user cannot create locations where the 'location usage' flag is blank, as this is creating location records with invalid data.

Set-up and Configuration

No set-up/configuration required

3.39 Customer Ref: Pick Wave

OBS Log Number:

353688

Summary of Call

WCS Picking Queries

Detail of Fix

Amend package so that if the first order in a pick wave contains just a single pick line, a '341' (header) message will be generated as well as the detail '121' (detail) message sent to RF.

Set-up and Configuration

No set-up/configuration required

3.40 Customer Ref: No Ref

OBS Log Number:

354196

Summary of Call

Packing performing differently

Add new warehouse level rule value 'ENRP' (Enable next record in pack detail).

Detail of Fix

If the rule is set to Yes and owner set to use single item packing, the screen will continue to automatically create a new detail record.

If rule is not set or set to any other value, the screen will revert to the old logic, and will not automatically create a new detail record.

Set-up and Configuration

Registry/Rules Settings		
Path & Name	Setting Value	Result
Warehouse level / 'ENRP'	Y	When user packs by single item packing and enters in a stock code, screen automatically creates new detail record
('Enable next record in pack detail')	Any other value or not set	When user packs by single item packing and enters in a stock code, screen does not automatically create a new detail record

3.41 Customer Ref: No Reference

OBS Log Number:

354388

Summary of Call

PDF Generates Slowly

Detail of Fix

Improve performance of pick list - FWP format.

Set-up and Configuration

No set-up/configuration required

3.42 Customer Ref: No Ref

OBS Log Number:

353683

Summary of Call

Missing segments in INSDS files

Detail of Fix

The INSDS files for the JO1 format will allow the RFF_ON and NAD+BY segments to be optional. The customer address will be obtained from the NAD+BY segment in preference to the NAD+DP segment for new customers. The NAD+DP will always specify the delivery address for the sales order.

Set-up and Configuration

No set-up/configuration required

4 TID CHANGES

4.1 OBS Log Number: 353156

Customer Ref:

Summary of Call

Issues following software release

Detail of Fix

New rule PTIG to allow pallet type validation for locations to be ignored. Allow WLE records to be updated without checking for other WLE's for same pallet. Allow mass updates. Add description for location types. Include more details in error messages when updates are not allowed.

Set-up and Configuration

Registry/Rules Settings		
Path & Name	Setting Value	Result
PTIG	'Error (Default), 'Warning, 'Yes	Ignore pallet type validation for location types.

4.2 OBS Log Number: 353770

Customer Ref:

Summary of Call

Query following testing of 352587

Detail of Fix

Ensure the pallet move record generated by allocation has the correct RF priority value.

Set-up and Configuration

No set-up/configuration required

4.3 OBS Log Number: 353786

Customer Ref:

Summary of Call

TID:minor changes

Detail of Fix

Send catch weight in response to pallet enquiry if populated. A default label printer needs to be configured for program WHS0670 in the same way as one is configured for WHS0150.

Set-up and Configuration

No set-up/configuration required

4.4 OBS Log Number: 354024

Customer Ref:

Summary of Call

Pallet Enquiry - Catch Weights

Detail of Fix

Change get pallets (enquiry) to catch weight and check pallets (move) to weight.

Set-up and Configuration

No set-up/configuration required

4.5 OBS Log Number: 354316

Customer Ref:

354217 wms

Summary of Call

Container Typesw to be ISO compliant

Detail of Fix

Container type increased from 2 to 4 characters when adding new containers in GRN pre-advice.

Set-up and Configuration

No set-up/configuration required

Summary of Call	ePOD EDI from WMS
Detail of Fix	EPO despatch format.
Set-up and Configuration	No set-up/configuration required

5.2 OBS Log Number: 352858

Summary of Call	Improve display of WHS1942
Detail of Fix	Improve display of WHS1942 Shipment Pallet Maintenance, to match current screen standards.
Set-up and Configuration	No set-up/configuration required

5.3 OBS Log Number: 349858

Summary of Call	GRN REC Conf screen displays cancel GRNs
Detail of Fix	Exclude cancelled grns from lookups.
Set-up and Configuration	No set-up/configuration required

5.4 OBS Log Number: 352833

Summary of Call	RF - Pick conf issue
Detail of Fix	The stock can be allocated and picked in the same marshalling location or to a different marshalling location.
Set-up and Configuration	The stock can be split picked and pallets can be exchanged in these locations. No set-up/configuration required

5.5 OBS Log Number: 351797

Summary of Call	GRN Confirmation warning
Detail of Fix	New Owner rule to enable pallet qty validation at goods receipt
Set-up and Configuration	

Registry/Rules Settings		
Path & Name	Setting Value	Result
WGRD	Y	Warn user about goods receipt discrepancies

5.6 OBS Log Number: 352811

Summary of Call	Mixed Stock Putaway Tasks in RF
Detail of Fix	WMS changed to set PICKUP_TEXT to 'Put-away ' + description of stock.
Set-up and Configuration	No set-up/configuration required

5.7 OBS Log Number: 353597

Summary of Call	SOS1117 UI update General tidy up.
Detail of Fix	Align the data with the titles, utilize more of the available space on the screen.
Set-up and Configuration	Replace any abbreviations with the full word. No set-up/configuration required

5.8 OBS Log Number: 353613

Summary of Call	EDI order amend update process Ensure that EDI can upload a 6 character 'order route'
Detail of Fix	Add new OACO ('Order Amend Cancel Order') allows the system to either 'delete' or 'cancel' the original order.
Set-up and Configuration	

Registry/Rules Settings		
Path & Name	Setting Value	Result
Owner/OACO	Y	If EDI 'calender code' flag set to 'A' (amend), rather than deleting old orders, mark them as cancelled

'Order Amend Cancel Order'	Any other setting	No change
----------------------------	-------------------	-----------

5.9 OBS Log Number: 354197

Summary of Call	ORDER_WELL.T_WAREHOUSE_NAME update
Detail of Fix	Extended warehouse name on order enquiry screen
Set-up and Configuration	No set-up/configuration required

5.10 OBS Log Number: 354250

Summary of Call	EDI GR Update
Detail of Fix	Amend generic GRN delete functionality so that it can be run without a container no, and if necessary, send outbound RF GRN cancellation messages.
Set-up and Configuration	No set-up/configuration required

5.11 OBS Log Number: 353880

Summary of Call	Print queue control - shared platform
Detail of Fix	Amend print queue control
Set-up and Configuration	No set-up/configuration required

5.12 OBS Log Number: 344190

Summary of Call	PFS1541 SOP Validation screen update
Detail of Fix	Changes to the validation screen to reduce number of records fetched in first instance and help user search for data
Set-up and Configuration	No set-up/configuration required

5.13 OBS Log Number: 352078

Summary of Call	Check TIIL rule for TMSI by load level A new warehouse rule called TIIL (Transport Interface Include Load Level) has been introduced to enable or disable the triggering of the WMS-TMS interface control records at the route/load level in addition to the sales order level.
Detail of Fix	If TIIL is set to Y, a control record will be created to replace the sales order control records in processing, otherwise the control records will be created for each sales order on the route/load.
Set-up and Configuration	TIIL can be set to N or not configured for the warehouse for best practice. No set-up/configuration required

5.14 OBS Log Number: 354217

Summary of Call	Container Types to be ISO compliant
Detail of Fix	Changes to container fields lengths to allow for 4 character container types.
Set-up and Configuration	No set-up/configuration required

5.15 OBS Log Number: 354233

Summary of Call	Container Status setup script
Detail of Fix	Added setup procedure for container status.
Set-up and Configuration	No set-up/configuration required

5.16 OBS Log Number: 354328

Summary of Call	SOS1117 scroll bar update Amend screen so if owner rule OLIS (Order Line Issue Life) is enabled, the scrollbar was being moved, causing screen layout issues.
Detail of Fix	Amended screen so scrollbar doesn't over lay other fields, but it always stays to right.
Set-up and Configuration	No set-up/configuration required
