Add new Serial number ADSN (Allow Duplicate Serial Numbers for Owner) rule. The 'Rule' can be set

either at owner or warehouse level.

Goods receipts will allow for same serial number to be receipted against multiple stock codes.

Sales order allocated and picking will be changed to ensure that the correct serial number information is

updated.

Detail of Fix Additional Comments

ADSN rule only works when linked to VAPS (Validate Against Pre-Advised Serials) rule, as change needs

serial number record to be populated with a valid stock code.

It is assumed that no single sales order will contain the same serial number multiple times, as no sales

order will despatch stock linked to multiple trials.

NOTE: This change only covers the goods receipt and sales order process. Other processes such as

adjustments, movements etc will be covered by a separate change request.
