# EMERGENCY RELEASE - WMS 810

## RELNOTE ER023-090

| Module | Program Name | Ver | Call/Iss | Client Ref | Pr'ty | Remarks | Reporter |
|---|---|---|---|---|---|---|---|
| DATA_CONF_EDI_OUT_MSG_346026.sql | Data Script | 4.1 | 346026 | - | 3 | A new outbound EDI message type has been created, JNL_DTL. This is a copy of the existing ADJUSTMENTS message type amended to exclude journal transactions where either:<br><br>a) A record has been entered in the Transaction Type Exclusion List screen for the transaction type with no reason, or<br><br>b) A record has been entered for the transaction type and reason code.<br><br>i.e. A record with no reason codes will cause the transaction type to always be excluded, no matter what the reason code. A record with both transaction type and reason code will only exclude the transaction if both the transaction type and reason code match.<br><br>A new record will need to be setup in the Dynamic Outbound EDI message definition screen (XFM0050) with EDI Structure set to JNL_DTL.<br><br>The new message type will then need to be set up in the following EDI screens:<br><br>XF Command Screen (XFM0012) | Steve Carpenter |

| | | | | | | XF Re-sequence (XFM0011)<br><br>XF Monitor (XFM0020) | |
