EMERGENCY RELEASE - WMS 810

RELNOTE ER026-034

Module	Program Name	Ver	Call/Iss	Client Ref	Pr'ty	Remarks	Reporter
AT_STK_STOCKIST_350366.sql	Alter Table Script	4.1	350366	-	3	New functionality based on the new Topup Replen after Allocation option on the Sales Order tab of the Owner Maintenance form. If the flag is set to Yes, after allocation an automatic replen of the pickfaces will be done. The replen mimics the actions of the Bulk to Pick Replen screen as a case level replen to Pick for Home type orders, and runs for all stock codes allocated on that allocation pass, for all locations.	Nigel Baldwin

WHSORA010.fmx	Order Allocation	4.83	349841	-	3	Add new 'force allocate' parameter to WMS allocation, allowing functionality to be run against a pick wave as well as an order. Ensure pick wave screen allows user to send picks to RF even if ORDER WELL record is not marked to allocated. The force allocate buttons only visible if RFPA (RF-Partial Allocation) flag set to Yes.	Matthew Tipping
