1 External Systems

This page is used to setup/maintain details to access external systems, for example mapping or EPOD systems.

NOTE: It is advisable **NOT** to change any of the values in this page

unless specifically instructed to do so by a member of the Aptean support team.

Module

☐ POR
 ☒ TTM
 ☐ WMS
 ☐ TMS

Config Selection

POD ▼

Find

The user should first select the required module. This will then display a drop-down list of the available configurations for that module. The user should select the config they want and click on the Find button to display the configuration for that selection:

Add New TTM_POD Format

Format

Level: System ▼

Type: EPOD-O - ePOD Note (Owner) ▼

Add

Format	Level	Type	Description	User	Password	URL	Delete
EPOD	System	EPOD-O	E-POD External system	username	!uhf584y6!45C3h	https://show.epod.com/displayepod	

Owner Details

The user can then enter/amend the details such as Username/Password and URL. Some configurations will have a detail level to enter details against, for example Owners as show above.

Clicking on this button will take the user into the detail page, for example:

TTM_POD - Owner								
Owner	Description	Format	Extra 1	Extra 2	Extra 3	Extra 4	Extra 5	Disabled
10259	10259 [D]	EPOD ▾	145943634558					<input type="checkbox"/>
C45031N	C45031N [D]	EPOD ▾	1459640325n3					<input type="checkbox"/>
GUA	GUA [D]	EPOD ▾	405n34593424					<input type="checkbox"/>
K36	K36 [D]	Not Set ▾						<input type="checkbox"/>
KIN	KIN [D]	Not Set ▾						<input type="checkbox"/>
OBS	OBS [D]	Not Set ▾						<input type="checkbox"/>
PCO	PCO [D]	Not Set ▾						<input type="checkbox"/>
PWK	PWK [D]	Not Set ▾						<input type="checkbox"/>
PWSPCL	PWSPCL [D]	Not Set ▾						<input type="checkbox"/>
SHO	SHO [D]	Not Set ▾						<input type="checkbox"/>
SKINP	SKINP [D]	Not Set ▾						<input type="checkbox"/>
WIL	WIL [D]	Not Set ▾						<input type="checkbox"/>

Additional details can be entered here, and the values will depend on what is required - contact Aptean support for details of which fields/values need to be entered for each external system.

NOTE: By default, details on this page will have a Format of "Not Set" - to enable, for example as displayed above, an owner to have a POD format, the user must change the Format from "Not Set" to one of the setup formats.

In this example, when a new owner is added to the system, this owner will NOT have a format set on this page until this is manually updated in this page.
