1 Home - WMS

The Home page will welcome the user into the system. In addition to the news items, for the WMS module a section will be available to select the users current Dataset (if more than one is available), Warehouse and Owner:

WMS Options	
Site	DEV_WMS ▾
Warehouse ID	SPE : SPE WAREHOUSE ▾
Owner	SPE : SPE OWNER ▾

Changing these values will change the defaults in all of the other WMS pages.
