# 1 Login

The login page allows access into the system, and consists of a username and password prompt:

The screenshot shows the Calidus Portal login interface. At the top, there is a black header bar with the 'aptean' logo on the left, 'Calidus Portal' in the center, and a 'CALIDUS Portal 11.1.8' version indicator on the right. Below the header, the 'aptean' logo and tagline 'Ready for What's Next, Now™' are displayed on the left. In the center, the 'Calidus Portal Local' login form is shown, featuring 'Username' and 'Password' input fields, a 'Login' button, and a 'Forgot Password' link. At the bottom of the form, there are flags representing various countries. The footer of the page includes a small 'A' logo on the left and the 'CALIDUS' logo on the right.

If enabled, a "Forgotten Password" link will exist to email a password reset link to the user.

If Multi-Factor authentication is enabled within the system, an additional prompt will be displayed after the username/password has been entered and the Login button is pressed:

The screenshot displays a 'Multi Factor Authentication' modal window. The title bar is dark grey with the text 'Multi Factor Authentication' and a close button (X). The main content area is light grey and contains the text 'Google Authenticator Code' followed by an empty input field. Below this, there is a 'Send Email Code' button and a large, dark grey 'Login' button.

Once logged in successfully, the user will be taken into the system and the Home page will be displayed.
