Manifest Processing

Contents

1 Manifest Processing

The Manifest Processing page will allow the user to Close or Print a manifest or Print Manifest Labels.

Initially, a parameter page will be displayed:

Supplier	9570 : STOKE 1 Distribution Centre ⌄
Manifest Type	All Manifests ⌄
Manifest No	[ ] Optional
Manifest Collection Date From	01-01-2023 **To** 12-04-2023

Find

Supplier The drop-down will display a list of available suppliers (based on restrictions). If only one supplier is available, it will already be selected.

Manifest Type The type of manifest - 'All', 'Open' or 'Closed'

Manifest No An optional entry of a specific Manifest ID.

Manifest Collection Date An optional collection date range for manifests.

After entry of the required parameters, the user should click the 'Find' button to retrieve a list of manifests within the selection criteria:

Manifest	Manifest Status	X-Dock Location	Collection Date	Date Created	Created By	Date Closed	Labels Printed	Manifest Printed	No. Consignments

Selecting an 'Open' Manifest will take the user into the Manifest Details page as previously described.

Selecting a 'Closed' manifest will take the user into the same page as the 'Open' Manifest, but at the point where the manifest was closed. At this point, the user can print/re-print all the labels for the manifest and/or the manifest note, or click on an order line to go to the Manifest Order Details page.
